

SARC Information

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served

basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Mission Statement School Year 2023-2024

The mission of Vista Real Charter High School is to provide a student-centered, high-quality secondary education for all learners through a safe, supportive, trauma-informed community where students are encouraged to self-advocate, take control of their education, and explore new opportunities and skills in the pursuit of becoming contributing members of society.

In order to carry out this mission, Vista Real strives to equip students in this community with the educational skills necessary in the 21st century – the ability to read, write, speak, and calculate with clarity and precision and the ability to participate intelligently and responsibly in a global society. The school offers alternative educational avenues through which students can acquire the knowledge necessary to make a difference in their lives. A combination of site-based learning, independent study, and distance learning allow for flexibility and personalization of each student's educational experience.

The school provides a diverse, student-centered environment in which all learners are held to high academic and behavioral standards. Students work in collaborative relationships with a comprehensive team of educators, counselors, and support staff who work with them on a one-on-one basis to personalize their learning. Vista Real seeks to develop students who are competent, self-motivated, life-long learners. In order to accomplish this, the school emphasizes increased parental involvement, trauma informed care, attention to different learning styles, student-driven participation in the learning process, technology access, and choices in curriculum pathways.

Vista Real places a strong emphasis on parental involvement in the learning process. Parents/Guardians are viewed as an essential link in improving education; therefore, parents/guardians are encouraged to participate through frequent communication with teachers, participation in school related functions, and attendance in school sponsored parent development workshops. By providing an avenue for meaningful parental involvement, Vista Real strives to bridge the gap between school and home. It is the hope of Vista Real that students will have a team of supporters both in and outside of school so that they witness first-hand their parents and teachers working together to make a difference in their education and their future.

School Description and Profile

School Year 2023-2024

Vista Real is a WASC accredited, public charter school that offers a personalized educational program for high school students/families who prefer an Independent Study model to meet their academic needs. Typical students are those who want an alternative to the local, public school systems and seek a program that allows them the flexibility to learn at their own pace. Most students come to Vista Real because they were unsuccessful in the traditional high school setting or they need a more personalized approach to education. Other students need the flexibility of an independent study model to meet family obligations such as work or caring for a child or they seek freedom from the social demands of a traditional high school. Regardless of the reason, the school offers a uniquely structured academic program, rigorously guided by the California Subject Area Content Standards that provides a challenging, yet highly individualized educational experience for students.

A. CONDITIONS OF LEARNING

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Teacher Assignment

The school recruits and employs qualified credentialed teachers who meet all credential requirements in accordance with State of California guidelines. This chart displays information about teacher credentials at the school.

Note: As an independent charter school, the school's program, resources, and administration are run independently from the sponsoring district, so there is no district data to report for comparison in this section.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teacher Misassignments & Vacancies

Misassignments refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc. Teacher vacancies reflect the number of positions to which a single designated certificated employee has not been assigned at the beginning of the year for an entire semester or year.

Textbooks & Instructional Materials School Year 2022-2023

The school determined that each student has sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California.

All students, including English Learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects, health, foreign languages, and visual and performing arts for use in the classroom and to take home.

The table displays information collected in November 2023 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements School Year 2023-2024

Vista Real Charter High School currently operates six resource centers in Ventura County. The original center is located in Oxnard and there are five satellite centers in Camarillo, Santa Paula, Simi Valley, Port Hueneme, and Ventura. All facilities are in safe and functioning condition. All sites meet city and state codes. Vista Real has recently updated the interior design and furniture of all sites to better meet students’ learning needs. This includes expanding small group instruction spaces and introducing modular furniture to enhance learning experiences.

The chart below displays the results of the most recent facilities inspection at the school. Facilities information was collected in October 2023.

B. PUPIL OUTCOMES

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities)

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for Mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.
- Note: As an independent charter school, the school’s program, resources, and administration are run independently from the sponsoring district, so there is no district data to report for comparison in this section

Career Technical Education (CTE) Programs School Year 2022-2023

Vista Real recognizes the need to integrate core academic knowledge with technical skills in order to be successful in today's modern workforce and continues to develop its Career Technical Education (CTE) program. The school is committed to bringing students greater opportunities in developing these skills through continued efforts to expand relationships with local businesses, trade schools, and community colleges. Partnerships with local business, such as the Marriott Hotel partnership, provide real-world job seeking experience, while CTE courses such as Integrated Health and Patient Care help students explore different career pathways. The school is currently in the early stages of implementing a new platform called Edymanics where students can take various career courses that can lead to certification. Additionally, Vista Real has have specific curriculum centered around development of career skills such as Intro to Computers & Info Tech and Professional skills.

Vista Real also partners with the Ventura County Office of Education and the Ventura County Community College District to give students access to a variety of career education programs such as medical field training, automotive repair, manufacturing, welding, and more.

This table displays information about participation in the school's Career Technical Education (CTE) programs.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

Physical Fitness

In the spring of each year, all California schools are required by the state to administer a physical fitness test to students in the fifth, seventh, and ninth grades. The physical fitness test is a standardized evaluation that measures each student’s ability to perform fitness tasks in five major areas. Students who meet or exceed the standards in all six fitness areas are considered physically fit or in the “Healthy Fitness Zone” (HFZ).

Note: To protect student privacy, an asterisk (*) is used in the table when the cell size within a selected student population is ten or fewer.

C. ENGAGEMENT

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site

Opportunities for Parental Involvement School Year 2023-2024

Vista Real encourages regular parental involvement throughout the school year. There are have several opportunities for formal

participation including Parent Information Nights, Parent Advisory Committee and English Learner Advisory Committee. These Committees are held quarterly each school year and are avenues for families to provide input/feedback in planning, developing, implementing, and evaluating the school program. Parent educational partners are encouraged to participate in the development of the Local Control and Accountability Plan, the WASC accreditation report, and grant plans such as Title 1, Part A. They are asked to provide input on the progress of these plans throughout the year. In addition to this, parents also attend informational workshops on issues of concern, such as vaping, teen drinking, and cyber safety. Vista Real also highly encourages parent/family attendance at the school’s annual Open Houses, senior nights, and awards nights as well as other informal and formal meetings throughout the school year.

Notices for all meetings are sent to parents/families in advance via email, phone calls, ParentSquare, and social media. For PAC and ELAC meetings, notices are posted to the school website and at each site location, 72 hours in advance. These meetings are open to all educational partners from the community. Parent Conferences and Open House events are also held during the school year to facilitate communication between parents, teachers, students, and community partners. In addition to these formal events, parent educational partners are encouraged to call and meet with their child’s teacher as needed to support academic progress. Beyond this, educational partners may contact the local school office at any time or reach out to their school site administrator directly.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism.

Dropout & Graduation Rates

Many students who enroll at Vista Real have been disengaged from their education for extended periods of time. To better serve these students, the school begins interventions from the point of enrollment. Courses for new students are carefully selected to create a personalized learning plan to meet their goals. Among these courses are Digital Skills, Skills4Life, Essay Composition and Financial Literacy. These foundational courses establish the skills necessary to be successful in their core courses. For students enrolling who are 19 years of age or older, they are assigned an Assets course that they must complete, one-on-one, with a teacher. This supports the student in transitioning into Vista Real’s unique program.

Additionally, students are supported in determining their college and career interests by teachers and counselors who help them map out a pathway to reach those goals. Teachers then build upon this throughout the year to support academic planning as well as college and career readiness.

Students also participate in academic assessments, such as NWEA, after enrollment. The assessments help teachers

understand the strengths and areas of growth that the student may possess, allowing staff to remediate and ensure that students are not enrolling in courses beyond their current academic abilities. Additionally, the availability of unlimited, free tutoring also serves as an intervention for students when they struggle academically.

Together, all early interventions are intended to promote attendance and reduce the likelihood of student dropouts. However, despite multi-tiered efforts to engage students, these interventions are not always met with student success and can ultimately affect Vista Real’s Graduation Rate. When faculty and staff see a decline in a particular student’s attendance, more specific and targeted interventions take place in progressive steps:

- A missed day of school results in a “Prevention Call” home from the teacher.
- A pattern of missed school days results in a Prevention Meeting with the teacher and the Student Retention Specialist to re-engage students early on.
- A continued pattern of missed school days after a teacher conference results in an Attendance Intervention Meeting (A.I.M). In this meeting the parent or adult student meets

with the Student Retention Specialist to discuss the legal requirements of school attendance for minors and problems adults may face as high school dropouts. If the student/parent cannot be reached, a home visit will be conducted.

- A continued pattern of missed school days after an A.I.M. intervention is escalated to a Student Retention Meeting (S.R.M) intervention. Student Retention Meetings include the School Counselor, Supervising Teacher, School Administrator, and the Student Retention Support Specialist. When the student and parent meet with the S.R.M. team, serious conversations take place about the appropriateness of independent study for the student, school options, and the serious long-term consequences of dropping out of school.

Note: The California Department of Education DataQuest system reports four-year cohort graduation and dropout numbers. The one-year graduation rate is reported through the California School Dashboard and internal student information systems data was used in the chart below, because it was the most recently available source. The school is a Dashboard Alternative School Status (DASS), because the student population served is typically behind in credits. The tables display the most current data available. N/A is displayed when the school is new, or there is no data available to report, because the state did not report their data when this report was published.

Note: The California Department of Education DataQuest system reports the Four-Year Adjusted Cohort Rate (ACGR) for all regular high schools. However, the ACGR is not a match for our school, because we are an approved Dashboard Alternative School Status (DASS). We serve a student population who are typically behind in credits, and not likely to graduate on time in a regular school setting. As a DASS school, we report the one-year graduation rate, which is calculated internally or from the California School Dashboard. The tables display the most current data available. N/A means that data was not available at the time of publication. Note: To protect student privacy, an asterisk (*) is used in the table when the cell size within a selected student population is ten or fewer.

Chronic Absenteeism

The current Chronic Absentee rate is not calculated in a manner for non-classroom based DASS programs to reflect the nature of the students served. According to the CDE, students are determined to be chronically absent if they were eligible to be considered chronically absent at the selected level during the academic year and they were absent for 10% or more of the days they were expected to attend. Vista Real Charter follows all of the required CA State School Dashboard requirements.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions & Expulsions

The table displays the suspension and expulsion rates at the school and throughout the state. Expulsions occur only when required by law or when all other alternatives are exhausted. Additionally, please note that the suspension and expulsion rate for the state was not available at time of publication.

School Safety School Year 2023-2024

The school Safety Plan consists of the Injury and Illness Prevention Program, Emergency Procedures, and Section 4 of the Employee handbook. Sponsoring School Districts ask for these safety programs as part of the charter’s renewal process. The Safety Plans are reviewed annually and update, if necessary our School Safety Plans annually and update them, if necessary. The safety of students and staff is a primary concern for the school. Both teachers and administrators supervise the students throughout the school day to ensure a safe and positive learning environment. Both staff and student school IDs are expected to be displayed at all times, and visitors to the sites must register at the front office to receive appropriate identification badges before entering the classroom. The school safety plan was last updated and reviewed with school staff in November 2023.

The information in this section is required to be in the SARC but is not included in the state priorities for LCFF.

Class Size

Due to the nature of independent study, class size distribution data is unavailable for this school.

Counseling & Support Staff
School Year 2022-2023

Vista Real seeks to assist students in their social, emotional, and personal development as well as academics. The school provides special attention to students who experience achievement problems, difficulty coping with personal and family problems, trouble with decision making, or handling peer pressure.

The following is a list of support staff available to students at the school.

School Expenditures Fiscal Year 2021-2022

The table provides a comparison of the school's per pupil funding from unrestricted sources with other schools throughout the state. Supplemental/Restricted expenditures come from money whose use is controlled by law or donor. Money designated for specific purposes by the district or governing board is not considered restricted. Basic/Unrestricted expenditures, except for general guidelines, are not controlled by law or donor. The California Department of Education issued guidance regarding how to calculate school-level per-pupil expenditures.

For detailed information on school expenditures for all districts in California, see the CDE Current Expense of Education & Per-pupil Spending Web page at <http://www.cde.ca.gov/ds/fd/ec/>.

For information on teacher salaries for all districts in California, see the CDE Certificated Salaries & Benefits Web page at <http://www.cde.ca.gov/ds/fd/cs/>.

Professional Development

The school's certificated staff members and administrators participate in ongoing professional development to improve curriculum and instruction. Professional development sessions are held throughout the school year and focus on a wide variety of topics aimed at trauma-informed care, strengthening pedagogy, and content knowledge to meet the needs of the school's diverse learners. Special emphasis is placed on targeting the unique needs of its English language learners, special education students, and social-emotional learning. School staff also participate in a variety of development events for continuous improvement. These events include Professional Learning Communities (PLC), department meetings, software trainings, etc. The PLC process of continuous school improvement is characterized by utilizing data to drive instructional decision making to improve academic outcomes for students. The process is driven by teachers who are actively engaged in identifying areas where students show a need for improvement and targeting those areas through the use of evidence-based instructional strategies. Teachers and staff collaborate for up to two hours weekly to exclusively focus on this process of continuous inquiry.

In addition, school administrators participate in ongoing professional learning with a focus on effective school leadership practices and instructional leadership. The Administration Team identifies school-wide focuses for its campuses each year for professional development and, along with the Curriculum Instructional Coordinator and Regional Instructional Specialists, take the lead in organizing staff development opportunities and ongoing coaching. Professional development topics are based on the needs of the school, input from parents/families, suggestions from school staff through department meetings and/or staff surveys, and through the collection and analysis of data highlighting school needs and/or areas of improvement.

The school also provides Induction training to preliminary credentialed staff through a partnership with the Ventura County Office of Education and the Palmdale Unified School District. Participating staff are assigned a mentor with whom they work together to complete all required Induction activities. Newly hired teachers are also partnered with existing teachers for support and participate in required on the job training for the purpose of familiarizing them with the program and the mission of the school. The school's special education teachers receive annual training on new procedures and processes, as well as effective instructional strategies for improving academic achievement. In addition to professional development opportunities offered locally, staff also have the opportunity to attend professional conferences such as the California Charter Schools Association's annual CCSA Conferences, annual A-plus+ conferences, and other conferences sponsored by educational organizations.
