

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Vista Real Charter High School

CDS Code: 56-10561-0109900

School Year: 2026-27

LEA contact information:

Corrine Manley

Area Superintendent

cmanley@vrchs.org

(805) 486-5449

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

This chart shows the total general purpose revenue Vista Real Charter High School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Vista Real Charter High School is \$43,800,487, of which \$37,569,446.00 is Local Control Funding Formula (LCFF), \$6,062,001.00 is other state funds, \$0 is local funds, and \$169,040.00 is federal funds. Of the \$37,569,446.00 in LCFF Funds, \$10,064,883.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Vista Real Charter High School plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Vista Real Charter High School plans to spend \$43,324,923.00 for the 2026-27 school year. Of that amount, \$37,150,394.00 is tied to actions/services in the LCAP and \$6,174,529 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Our independent study program implements a personalized learning experience for all students, including English learners, LTELs, low-income, foster youth, and special education students, that is carefully designed to address their unique academic and social-emotional needs. To serve our At-Promise and highly mobile population, expenditures are budgeted for, but not limited to, teacher and staff salaries and benefits, student interventions, curriculum development, professional development, materials, hardware, and software. Not included in the LCAP are the following:

- Audit fees
- Legal expenses
- Association fees
- Special Education expenditures
- Mandated Block expenditures
- Ancillary Grants
- AMS Prop 28: Arts and Music in Schools (AMS) Funding Guarantee and Accountability Act
- Student Support and Professional Development Discretionary Block Grant

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Vista Real Charter High School is projecting it will receive \$10,064,883.00 based on the enrollment of foster youth, English learner, and low-income students. Vista Real Charter High School must describe how it intends to increase or improve services for high needs students in the LCAP. Vista Real Charter High School plans to spend \$10,064,883.00 towards meeting this requirement, as described in the LCAP.

The Local Control Accountability Plan (LCAP) directs the Supplemental and Concentration funding into goals and actions designed to help high-needs students with social-emotional support, academic interventions, counseling, and student engagement activities. Students have access to a robust tutoring program that supports their learning. Targeted academic interventions help close skill and knowledge gaps, ensuring that students become competent graduates. A brief description of the LCAP is that our first goal is a focus goal, and the first action is directed at helping our English learners and LTELs. Our second goal is a broad goal supporting student interest in a career or higher education. The third goal is a maintenance of progress goal that meets the mission of our school program, which is to retain students and help them graduate. The last LCAP goal is aimed at improving our educational partner engagement, especially for our English learners, low-income, and foster youth:

Goal #1: Increase Academic Progress

- Action 1: English language learners and LTELs support staff, interventions, and materials.
- Action 2: All academic interventions and program materials.
- Action 3: Tutoring and support for students.
- Action 4: Counseling students toward graduation and materials
- Action 5: Student activities that increase learning efforts.
- Action 7: Professional Development for English learners.

Goal #2: Students Will Gain Skills for College and Career Readiness

- Action 1: Career and college-readiness for English learners, LTELs, low-income, and foster youth students.
- Action 2: Professional development addressing English learners, LTELs, low-income, and foster youth students.
- Action 3: Technology for upgrading student programs.
- Action 4: Support for Standards-based Curriculum and Instruction

Goal #3: Increase Student Retention

- Action 1: Student Retention Support personnel and incentive programs.
- Action 2: Social-emotional, trauma support services and materials.
- Action 3: Transportation for English learners, LTELs, low income, and foster youth students.
- Action 4: Access to nutrition for English learners, low-income, and foster youth students.

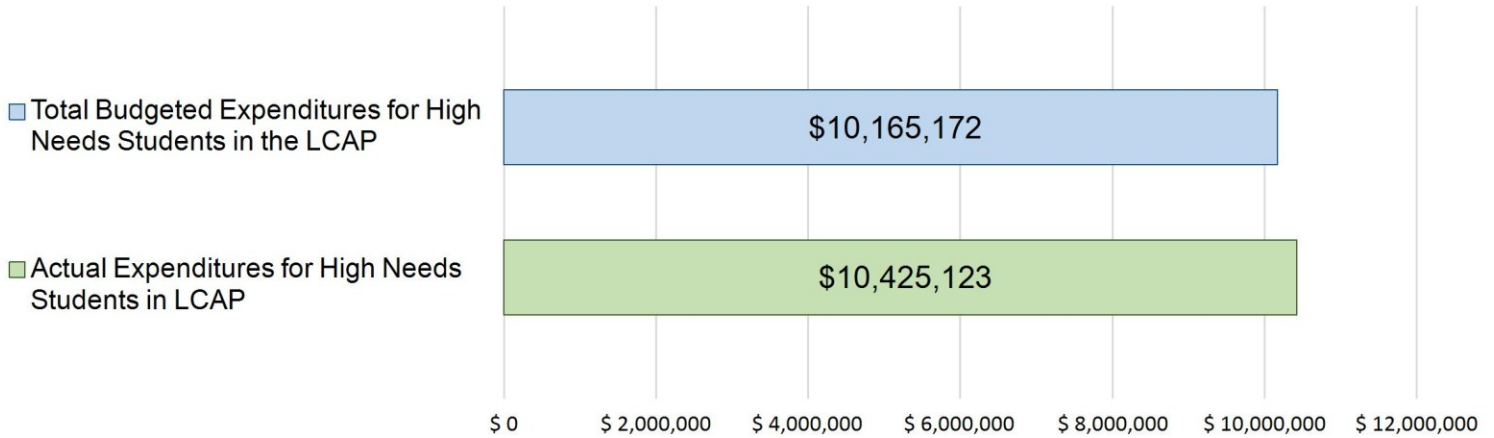

Goal #4: Increase Educational Partner Engagement

- Action 1: Community/Parent Liaison and meaningful school activities.
- Action 2: Translation services and contracted services for outreach.
- Action 3: Educational partner events, personnel, and materials for engagement.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

Prior Year Expenditures: Increased or Improved Services for High Needs Students

This chart compares what Vista Real Charter High School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Vista Real Charter High School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Vista Real Charter High School's LCAP budgeted \$10,165,172.00 for planned actions to increase or improve services for high needs students. Vista Real Charter High School actually spent \$10,425,123.00 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Vista Real is a Dashboard Alternative School Status (DASS) program that offers a personalized education for high school students/families who prefer an independent study approach to learning. We have 6 locations throughout Ventura County in order to maximize student access. We are a year-round charter school offering both credit recovery and accelerated learning pathways for our 1,271 students. The current enrollment includes 18% English Learners, 85% Socioeconomically Disadvantaged, 2% Foster Youth, and 24% Students with Disabilities.

We serve a diverse community of students who enroll at Vista Real seeking an alternative to the traditional school systems. The majority of students who enroll in our program are heavily deficient in credits. Because of this, they benefit from a more focused, one-on-one approach to learning, as they may feel disconnected in larger classroom settings. Additionally, many students require a more flexible educational program so that they can better balance their responsibilities outside of school. Some students have to work to help their families make ends meet and some may be parents themselves, needing more time outside of the classroom to focus on their homelife. Regardless of the circumstances, we support students in working towards a high school diploma, as well as in attaining post-secondary goals.

We offer a combination of site-based learning, independent study, and distance learning to allow for flexibility and personalization of each student's educational experience, maximizing their potential to succeed, while also allowing them time to manage other demands in their lives. Through a uniquely structured academic program, rigorously guided by the California Subject Area Content Standards, we provide a challenging, yet highly individualized, educational program for students.

Modern and diverse, student-centered campuses offer an environment in which all students are held to high academic and behavioral standards. We seek to develop students who are competent, self-motivated, life-long learners. In order to accomplish this, we emphasize increased parental involvement, trauma-informed care, attention to different learning styles, student-driven participation in the learning process, technology access, and choices in curriculum pathways. Students collaborate with a comprehensive team of educators, counselors, and support staff to individualize the learning process. This one-on-one, personalized attention allows each student to thrive in their own way and at their own pace.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflections: Successes

We analyzed our school data using the CA Dashboard, DataQuest, our SARC, and our LCAP Annual Data Report, which aligns with the 8 state priorities. Although the school is identified for Comprehensive Support and Improvement (CSI) due to the federal graduation rate and for Differentiated Assistance for student groups in the red, there were significant successes, as shared in the key metrics below.

Graduation Rate

Our CDE Dashboard Alternative School Status (DASS) Graduation rate was calculated at 91.0%. This is high for a DASS school serving students who enroll needing more than +30 credits, on average, to graduate. This is a +15.10 percentage point increase from the baseline year, and it has been high over the last two years. 95.8% of our English learners and 95.0% of our LTELs graduated in 2025. Our low-income, Hispanic students, and students with disabilities graduated at rates of 91.3%, 91.6%, and 89.2%, respectively. Our homeless group was below the All-student group at 78.9%. Additionally, the White student group graduated at 90.9%. Our African American, Asian, foster youth, and all other student groups did not have enough in the population to warrant a calculation. This shows that our mission of meeting students' academic and social-emotional needs was effective. We plan to increase our success with our students by increasing such supports as tutoring for all seniors.

English Learner Progress

The CA Dashboard ELPI is green and shows 52.8% making progress towards English proficiency. This is an increase of 7.9 percentage points from the previous year, and it is high for a DASS school. Our LTEL group was also green, showing 53.3% making progress, with an increase of 6.1 percentage points. Our expected outcome is moderate growth. Our English Learner Reclassification Rate increased from a baseline of 12% to 18% this year. We exceeded our expected outcome of 8.6% in reclassification and in our ELPI, which is above the state average of 46.4%.

CA Dashboard English Language Arts

Our Academic Indicator for English Language Arts showed the All-student group performing at 57.3 points below standard and receiving an orange status. This was a 5.2 point increase from the previous year. The students with disabilities and Hispanic student groups earned an

orange status, with a 6.2 and 13.7 point respective increase. Also in the orange were English learners with a 51.5 point increase, and our socioeconomically disadvantaged students who increased 3.6 points. The White student group was the only one in red, due to a 37.7 point decline. Our African American, Asian, Filipino, LTELs, foster youth, homeless, and all other groups did not have enough students for a status to be calculated.

CA Dashboard Mathematics

The Academic Indicator for Mathematics for the All-student group earned an orange status by increasing 4.7 points from the previous year. The All-group was below standard by 163.5 points. In the orange were Hispanic students with a 10.4 point increase and English learners with a 41.6 point increase. There were three groups in the red. Our students with disabilities declined by 5.7 points and our socioeconomically disadvantaged student group maintained its status. The White group declined by 38.4 points. Our African American, Asian, Filipino, LTEL, homeless, foster youth, and all other student groups did not have enough students to warrant a calculation. There were no other groups that were two or more performance levels below the “All student” group.

Success Rate

Another important measure for us is our Success Rate, which is the percentage of students who graduate, along with the percentage that are retained or returned to their local school district. This metric was recalibrated to be an end-of-year measurement. Our success rate was high at the end of last year at 92.47%. This is 12.47 points above the target outcome. It’s been high over the last three years and shows that our mission of meeting students’ academic and social-emotional needs continues to be effective.

Non-Completer Rate

This metric was recalibrated to be an end-of-year measurement. As a result, we saw an increase to 7.53% in our Non-completer Rate, which is below our 10% threshold. Our teachers and retention support staff work to address the serious concerns we have for students potentially dropping out. Building relationships and staying connected to students has kept the non-completer rate low.

Attendance

Our Attendance Rate is high at 88.35% and is 5.55 percentage points higher than the previous year. It is above our expected outcome of 85%. We believe that re-engagement strategies help increase the students’ Attendance Rate. Our teachers and retention support staff worked to address the serious concerns we had for students dropping out. Building relationships and staying connected to students has kept students enrolled in school and attending regularly.

Credit Completion

Our Credit Completion Rate is a very important local metric that helps to monitor progress towards graduation. It has increased over the last two years. With additional supports in place, such as tutoring, our students were able to earn on average +63.6% more credits compared to

the baseline. Our low-income students earned +63.7% more credits. Students in the low-income and special education groups earned +1.30 and +1.10 points higher, respectively, in credit completion compared to baseline. The foster youth student group also increased by +2.10. The English learner group earned +1.03 more credits compared to their baseline. We expect to continue to increase our credit completion rates for all students so that they stay above 4.0 or higher each learning period.

Suspension and Expulsion Rate

Suspension rate was green, which is “Low” on the CA Dashboard. It was 0.4% for the All-student group. Our Long-Term English Learners (LTELs) and the White student group had a yellow status. English learners had a green status. Earning a blue status were our Two or More Races, Hispanic, homeless, students with disabilities, foster youth, and socioeconomically disadvantaged who had 0 suspensions. Expulsions were also low at 0.0%.

School Survey Results

Our school survey data shows that 97% of our students felt connected this year. This is 1% higher than last year and is over our expected outcome. This is an important metric for us, and we expect it to be higher each year. Face-to-face interaction with a caring adult will help students feel connected. Additionally, 99% of the students surveyed said that they feel safe at school. It is very important to us to ensure that we are doing everything possible to provide students with the time and attention to support them during their time with us. Teachers also reported that 100% feel safe and 98% feel connected to the school. We have high expectations for school safety and connection, and we intend to continue to improve the sense of community at our school.

Parents are encouraged to participate in their students’ education as well as in school activities, events, and celebrations. This year, we had similar levels of participation in our PAC and ELAC meetings as last year. On the school survey, 98% of parents said that they feel encouraged to participate this year, which is a +17 percentage point increase from the baseline year.

Standards were met for the following state indicators:

- * Parent Engagement,
- * Local Climate Survey,
- * Access to a Broad Course of Study,
- * Basic Teacher and Instructional Materials, and
- * Implementation of Academic Standards.

How will we maintain our success?

We plan to maintain and build on our success by implementing our LCAP actions with fidelity, carefully monitoring our progress, and discussing our results within our professional learning community (PLC). We will continue to grow in our capacity as we engage in a process of continual improvement based on the Plan-Do-Study-Act model (PDSA). Ongoing data discussions between teachers and administration will be grounded in established (PLC) protocols, with a focus on improving student outcomes. These regular PDSA cycles of collaboration will ensure continued alignment with and commitment to our LCAP actions.

The goals and actions articulated in our LCAP support our personalized learning model, and adequate funding is provided to ensure that effective strategic supports such as tutors, student retention services, and trauma-informed trained teachers continue. We monitor the progress of our students through multiple measures around engagement and academic performance. LCAP data and other local data are discussed quarterly and shared with our educational partners, including the school board.

Due to the nature of our credit recovery, independent study, and Dashboard Alternative School Status (DASS) program, certain data points are not included in the LCAP. Students do not take Advance Placement, or pass EAP in any amount greater than 11, and the CDE prohibits any potentially identifying student data. The federal calculation for the 4-5 year cohort graduation rate and the chronic absenteeism rate metrics are also not a match for our program, because the calculations are for seat-based programs and not short-term independent study programs that have students with high mobility. We utilize alternative metrics such as the one-year DASS graduation rate and local attendance rates to monitor and report our students' progress towards graduation. Furthermore, our dropout rate is calculated as our non-completer rate, which tracks any student who does not report to us that they have continued with another program to complete their education.

Reflections: Identified Need

Our school is participating in Differentiated Assistance, and we are working with county experts. We did a robust needs analysis for student groups in the red on the CA Dashboard. We also used additional data, state and local metrics to identify student groups' performance gaps and resource inequities. We used student outcomes data from the latest CA Dashboard, DataQuest, CALPADS reports, and local LCAP data tracking. The data shows that multiple areas must be addressed as goals and actions in the LCAP. Our internal data collection and reporting system uses metrics that are aligned with state indicators and local performance indicators. We regularly monitor and evaluate our identified outcomes so that we can make program adjustments in areas that require improvement. As a professional network, we used a fishbone protocol for our needs assessment around our low graduation results. This revealed that multiple factors influence the graduation rate and must be addressed, including credit completion, attendance, student motivation, parent engagement, and tutoring.

Our school was identified for Comprehensive Support and Improvement (CSI), as a result of a low federal 4-5 year cohort graduation rate. Each year, we engage in a cycle of improvement and examine school data to determine if we will need to take action in the areas of graduation, credit completion, EL reclassification, and academic indicators by increasing tutoring support for students who are in line to graduate. This section describes our needs assessment to meet the federal requirement for CSI.

State performance indicators from the California School Dashboard show the following indicators were very low:

5-Year Cohort Graduation Rate

The federal 4–5-year cohort graduation rate is very low and qualified us for CSI. The student group data used in our analysis is from the Dashboard and is also reported in DataQuest. The 5-year graduation rate was 22.9% in 2025, 19.6% in 2024, and 18.5% in 2023. This is far below the 68% threshold, but it was an increase of +3.3% compared to last year. There were 7 groups in the red. English learners and LTELs were 11.5% and 11.4%. Our Hispanic students were at 21.3%. Students with disabilities were at 23.7% and increased by 12.4%. Additionally, the socioeconomically disadvantaged and homeless student groups maintained their red status at 21.5% and 22.6%. The White student group was at 24.3%, which is above the All-student group. There were not enough students in the following groups to warrant a

performance color for African American, Asian, two or more races, foster youth, and all other student groups. We recognize the inequities between the highest student group and the other student groups, and our plan to address the gap in graduation scores is outlined in our CSI plan and the LCAP.

CAASPP English Language Arts

The CAASPP scores also showed that 30% of our 11th graders were meeting or exceeding standards. This was the same as last year and is below the expected outcome of 50%. Most of our students come to us deficient in credits and skills, and they score at the 7th-grade level in ELA. The student groups who were below the All-group were students with disabilities and homeless, at 15% and 7%. Our low-income group was at 25%, and our Hispanic group was at 31%. The foster youth group was at 25%. Above the All-student group was the White group at 36%. Our African American, Asian, English learners, and all other groups did not have enough students for a calculation. Serving students who are traditionally 3-4 grade levels behind in their schooling is a factor in these results.

CAASPP Mathematics

Our 11th graders scored 2% in meeting standards on the CAASPP for Mathematics. This is a small 1% drop from the previous year. Our Hispanic students and low-income students both scored at 2%, which is the same as the All-student group. Our African Americans, Asian, White, English learners, homeless, students with disabilities, foster youth, and all other student groups did not have enough students to warrant a calculation. These results arise because students who enroll with us are typically 3-4 grade levels behind in their schooling.

CAASPP Science

The CAASPP Science scores also showed that 9% of our high school students were meeting or exceeding standards. This is an 11-percentage point decrease from the previous year. This is just below our expected outcome of 10%. Scoring just above the All-student group was the White group at 20%. The low-income students were at 7%. African American, Asian, Hispanic, White, English learners, homeless, foster youth, students with disabilities, and all other student groups did not have enough students to warrant a calculation. We serve students who are traditionally 3-4 grade levels behind in their schooling and this impacts test results.

Retention Rate

One critical focus of our program is to improve the performance of our disengaged students and address social-emotional concerns such as trauma. We identify, early on, which students are not completing their schoolwork and then assign them tutors to ensure that they help support student learning. This metric was recalibrated to be an end-of-year measurement. At the end of 2025, our retention rate was 76.00%, which is just 4 percentage points below our target outcome. We will continue to ensure that our teachers, tutors, and counselors collaborate to provide comprehensive support in order to retain students.

Student Groups with Lowest Performance Levels from 2023 CA Dashboard:

Graduation Rate Indicator: English Learner, Hispanic, Homeless, Socioeconomically Disadvantaged, Students with Disabilities, and White.
English Learner Performance Indicator: none
Academic Indicator -English Language Arts: Hispanic, Socioeconomically Disadvantaged, and Students with Disabilities.
Academic Indicator -Mathematics: Hispanic, Socioeconomically Disadvantaged, and Students with Disabilities.
College and Career Indicator: English Learner, Hispanic, Homeless, Socioeconomically Disadvantaged, Students with Disabilities, and White.

Learning Recovery and Emergency Block Grant

Our school received unexpected LREBG funds for the 2025-26 school year. The LREBG funded action results may be found in Goal 1, Action 8, prompt #2. See action for description of the rationale for choosing the selected actions.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Reason for Technical Assistance:

Initially, our collaborative DA Improvement Team analyzed the 2023 CA Dashboard Academic Performance Indicator results and identified that the student groups in the red were our English learners, Hispanic, homeless, socioeconomically disadvantaged, students with disabilities, and our White students. There was a decline in the API for ELA and Math for these student groups over two years. We have done a needs assessment to identify root causes and worked with the county on possible actions that could improve our student outcomes. We decided to build our capacity to better implement SIOB strategies in one-on-one and small group instruction. We expect this adjustment to have a positive impact on our student groups' performance on the Dashboard.

Summary of the work underway as part of receiving technical assistance:

Under guidance from Kern County Superintendent of Schools through Differentiated Assistance, our DA Improvement Team meets monthly to analyze and discuss school performance data. We are still building our Plan Do Study Act (PDSA) model for continual improvement. We are in the early stages of developing a structure to expand small group instruction in order to target math intervention for our students with disabilities, socioeconomically disadvantaged, and White students. Since these student groups have among the largest learning gaps in our school, we selected small group instruction as our evidence-based strategy to improve their math literacy. This effort has been included in our LCAP under Goal/Action 1.2. Our 2025 CA Dashboard increased by 5.2 points in ELA (orange status), and by 4.7 points in math (orange status). We intend to expand this intervention while strategically adding layers of tutoring support to reinforce learning. Our next steps include training teachers in lesson frameworks so that we can design and implement SGI courses that effectively address learning gaps.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Vista Real Charter High School is a single-school Local Education Agency.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

We are a single-school LEA with Dashboard Alternative School Status (DASS). This is a summary of how we supported ourselves in the development of the Comprehensive Support and Improvement Plan. With guidance and training from the CDE, the county, and our local professional network, we did the following:

- We assigned our State and Federal Programs coordinator to provide leadership for the school in conducting a needs assessment by analyzing the 2023, 2024, and 2025 CA Dashboard 5-year cohort graduation data to identify gaps and inequities between the highest student group and the other groups. The results are described in the Identified Needs section in the LCAP Plan Summary. Our framework is based on Carnegie's Improvement Science, and our model is the Plan-Do-Study-Act process for achieving continual improvement.
- The type of data collected for the needs assessment was CA Dashboard math, ELA, and graduation results, attendance data, tutoring participation data, and credit completion data.
- The data informed the CSI plan by guiding the root cause analysis towards intensive tutoring, as a viable research-based strategy that would increase student math skills, credit completion, and therefore graduation rates. The data revealed that students who participated in tutoring earned more credits than those who did not. As a result, Goal 1 Action 3 in the LCAP provides for intensive tutoring.
- The educational partners were engaged in the process through meetings held by leadership, sharing the data, and eliciting consultation from ELAC, PAC, staff, and student groups. Our discussions centered on equity for all students with regard to learning expectations, obstacles to achieving their potential, and access to quality materials and instructional support, such as tutoring. Additionally, as a professional network of DASS independent study schools, we reviewed graduation data using the fishbone protocol. This helped to reveal root causes. A deeper dive was done with the fishbone protocol with our admin team around credit completion rates, and the potential resource inequities questions helped frame our analysis. We then engaged our educational partners, PAC/ELAC parents, students, teachers, classified, and administration, in the analysis of the data. This led to their support for Goal 1 Action 3, which assigns intensive tutoring to students as a means to improve the graduation rate.

Evidence-Based Intervention – Intensive Tutoring

The State and Federal Programs coordinator supported the school by leading the principal's team through the needs assessment, identifying the evidence-based strategies, and then leading the school improvement team through the selection of evidence-based strategies at their team meeting.

The process for matching the selected intervention with the identified need was a collaborative endeavor through our professional network. We met regularly to study the data. From our needs assessment, we saw that those who attended tutoring earned 50% more credits, and we came to believe that tutoring could potentially close credit completion gaps. We then investigated other best practices for improving graduation.

The California Department of Education (CDE) and the California Collaborative for Educational Excellence (CCEE) provide evidence-based research focused on high-impact tutoring (also known as high-dosage tutoring). Their resources emphasize that tutoring is one of the most effective interventions for accelerating learning, particularly for students performing below academic thresholds. With guidance from CDE and county offices, we searched for solutions to improve our graduation rate, and we were guided to the following evidence-based research. In determining the selection of strategies to improve graduation, we considered and identified the following evidence-based research interventions from these sources:

The CCEE, in partnership with J-PAL North America (MIT), provides a "Learning Path" on implementing evidence-based tutoring.

Key Principles of Effective Tutoring: The CCEE highlights that to be effective, tutoring should be:

- o High-dosage/Frequency: Three or more sessions per week.
- o Integrated into the school day: Tutoring is most effective when done during school hours.
- o Trained Personnel: Tutoring is more effective when conducted by teachers or professional tutors rather than volunteers.
- o Small Group/1-on-1: Specific ratios are recommended (no more than 1:4 for middle/high school).

- CCLA (California Collaborative for Learning Acceleration): CCEE administers this initiative, providing an online repository of professional learning for mathematics, literacy, and language development.
- The impact of high-impact tutoring on student attendance: Evidence from a state initiative: Lee, M. G., Loeb, S., & Robinson, C. D. (2025). Ed Working Paper No. 24-1107, Annenberg Institute at Brown University.
- Personalized Learning Initiative Research Team. (2024). Realizing the promise of high dosage tutoring at scale: Preliminary evidence for the field. University of Chicago Education Lab & MDRC.
- Guryan, J., Ludwig, J., Bhatt, M. P., Cook, P. J., Davis, J. M. V., Dodge, K., Farkas, G., Fryer, R. G., Jr., Mayer, S., Pollack, H., Steinberg, L., & Stoddard, G. (2023). Not too late: Improving academic outcomes among adolescents. *American Economic Review*, 113(3), 738–765.

Found at https://scholar.harvard.edu/sites/scholar.harvard.edu/files/fryer/files/not_too_late_improving_academic_outcomes_for_disadvantaged_youth_2015.pdf.

This research on math tutoring, using a randomized controlled trial, involved 2,718 males in the ninth and tenth grades, from the south and west sides of Chicago. They were 90% on free and reduced lunch programs, and 95% were either African American or Hispanic. They demonstrated an increase in math scores by 0.19 to 0.31 standard deviations, as well as increases in math grades by 0.50 standard deviations. The positive impact of tutoring is also supported by the meta-analysis of the studies listed above, with one study in particular stating that there was an effect size for this practice above a 0.33 standard deviation (Nickow, Oreopoulos, Quan, 2020). This is a match for our demographics as well.

The intervention was chosen for three main reasons. First of all, our students are very low in math skills, which inhibits their capacity to earn credits towards graduation. Second, education research points to intensive tutoring as a viable means to increase math performance, which in turn will increase credit completion. Third, increasing students' capacity to earn credits through intensive tutoring will yield higher graduation rates.

Therefore, our professional network team and our educational partners selected the following research-based strategies to implement:

- * We will provide one-on-one intensive tutoring.
- * We will provide positive social incentives for good attendance.
- * We will track specific data for our seniors through site teams of teachers, counselors, and student retention support staff.
- * We are going to continue seeking educational partner involvement and input.

We will address the low performance in the areas of graduation, ELA, and mathematics by assigning intensive tutoring to students who demonstrate low scores as determined by their NWEA diagnostic results. These low scores reveal that there are inequities that must be resolved through the implementation of our plan.

Resource Inequities Analysis (Based on data using the 2023, 2024, and 2025 Dashboards as stated in the Reflections – Annual Progress section)

The State and Federal Programs coordinator provided guidance to the school through a resource inequities analysis. This showed that more funds should be added to LCAP Goal 1 Action 3, because the following groups had significant gaps between the highest student group's graduation rate and other student group rates. Specifically, almost every group was below the White student group in their 4-5 year graduation rate. There was a difference of about 16 percentage points for our English learners and students with disabilities when compared to the White student group. Additionally, our foster youth, homeless, African American, and Hispanic students had a gap of about 12-14

points from the highest student group. This data shows that there are inequities in performance, and our LCAP with its CSI plan is designed to address them in a comprehensive manner with research-based strategies such as intensive tutoring.

We are a charter school, and as a single school LEA, our State and Federal Programs coordinator provided support by discussing with school leadership to address the resource inequities and analysis, and agreeing to increase the funding for LCAP Goal 1 Action 3. The guiding framework was from The Alliance for Resources Equity at www.educationresourceequity.org. We also used the Dimensions of Resource Equity – School-level Diagnostic Questions to determine key resource levers that create equitable learning experiences for all students.

Additionally, the inequities rubric, provided by the Los Angeles County Office of Education, was used to help identify if there were any barriers to the following:

- Access to Highly Qualified Teachers
- Access to Counselors
- Access to Student Retention Services
- Access to Tutors
- Access to Interventions, both social-emotional and academic
- Access to Incentives for attendance, graduation, and retention
- Access to Support for high-needs English Learners, foster youth, special education, and homeless
- Access to Technology and instructional materials

The resource inequities are being addressed by increasing the funding in LCAP Goal 1 Action 3 for intensive tutoring. This goal provides funding for the tutoring support that will be provided to students as the action is implemented at the school site. Students are identified for tutoring based on NWEA diagnostic results, teacher referral and self-referral. Tutors connect with students daily and provide academic support in math and other subjects to help students learn and earn credits towards graduation.

All of our students receive a personalized learning program that is unique to each student and is specifically designed to create an optimal path toward graduation. The independent study model assigns a supervising teacher to each student, who develops a close relationship with the student, supports the student from enrollment to graduation, and brings in resources and support staff as needed.

Furthermore, the framework for guiding our process was based on Improvement Science in Education from the Carnegie Foundation for the Advancement of Teaching (2015). The Plan, Do, Study, Act (PDSA) model, when done frequently and in collaboration with a network will help our school improve its outcomes on multiple metrics. Through our professional network, we used a fishbone protocol to determine root causes behind the conditions and drivers that lead to the outcome of a graduation metric. This helped us to define the problem we would like to address. Our discussion focused on what changes we wanted to introduce and why. We plan to collect and share data regularly around credit completion, attendance, and senior graduation progress to help answer the question: “How will we know which change is an actual improvement?”

The Six Principles of Improvement from the Carnegie Foundation helped provide a foundation for our analysis:

- 1) Make the work problem specific and user-centered: What specifically is the problem we are trying to solve?
- 2) Variation in performance is the core problem to address: What works, for whom and under what set of conditions?
- 3) See the system that produces the current outcomes: What are the drivers that yield change?

- 4) We cannot improve at scale what we cannot measure: What are the key outcomes that track progress?
- 5) Anchor practice improvement in disciplined inquiry: How will we engage in rapid cycles of Plan, Do, Study, Act (PDSA)? “How will we know which change is an actual improvement?”
- 6) Accelerate improvements through networked communities: How can we accomplish more together?

These guiding principles will be utilized in our professional network throughout the year as we meet to discuss progress and next steps.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The State and Federal Programs coordinator will support the school team and work with them in monitoring and evaluating the effectiveness of their improvement plan throughout the school year.

The process, including metrics, used for monitoring the implementation of the CSI plan is that the State and Federal Programs coordinator will collaborate with the school team to collect tutoring participation data and share it with teachers and school leadership. This will be done every learning period.

The process, including metrics, used for evaluating the implementation of the CSI plan is to pull tutoring participation counts every learning period and determine if there is an increase in those who have received tutoring. The target is to increase tutoring participation by 50% at the end of the 7th learning period.

The process, including metrics, used for monitoring the effectiveness of the interventions to improve student outcomes, is to pull and analyze credit completion for all students who participated in tutoring. This will be done every learning period.

The process, including metrics, used for evaluating the effectiveness of the interventions to improve student outcomes, is to analyze the credit completion data to determine if it has increased. The target for the credit completion rate is 4.0. Additionally, we expect that the graduation rates will increase by at least 1% each year.

Additionally, we will collaborate with our professional learning community network and implement the Plan-Do-Study-Act (PDSA) model as our process for continuous improvement. Through a collaborative team of school educators, we will use school data, such as tutoring participation, credit completion rates, attendance, and graduation rates, to inform our inquiry and help focus on results. By monitoring our evidence-based interventions, we can see how seniors and others are utilizing the one-on-one tutoring and social incentives for good attendance. We will also continue to monitor our key metrics, such as credit completion rates and NWEA results, to identify the needs of struggling students who could benefit from additional one-on-one tutoring.

Again, the measure of success for the plan will be based on key indicators such as credit completion, attendance, tutoring contacts, the DASS one-year graduation rate, and the federal 4-5 year graduation rate. Since each student is assigned one-on-one time with an individual teacher, all students who are identified in the system as 12th graders are monitored closely by their teacher for progress toward graduation. Completed coursework and credits earned are monitored every learning period. In addition, counselors monitor all seniors for credits earned. We plan to monitor students early and often so that we can be proactive in responding to students' academic needs. We also plan to do the

following: provide support staff to work with students falling behind regularly to address their specific needs; ensure that students in need participate in tutoring with a tutor they can connect to regularly; and promote participation in small group instruction when possible.

To help ensure that we have the whole school community mobilized to support our Comprehensive Support and Improvement plan, we will report results back to teachers, students, parents, and the school board. We will share our progress on our CSI plan at least twice a year. We can build the capacity of our Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC) by sharing the school data progress with them at their meetings and eliciting their feedback as part of our PDSA model. Our school board learns about student progress towards graduation regularly, but with the CSI plan in place, we will ask for their feedback and input as part of our process. We have regular data reports that we can share with teachers and parent groups throughout the year, and we will continue to collaborate and celebrate as students make progress towards graduation.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
<p>PAC/Parent Advisory Committee</p>	<p>We prioritize meaningful two-way communication with both students and parents to ensure their voices inform our programmatic decisions. We actively encourage participation in our PAC meetings, where we invite our educational partners to share their perspectives and provide feedback. Our Parent Advisory Committee meetings were held on the following dates, with the listed discussion topics:</p> <p>Quarter 1 - 9/18/25 Agenda Topics: BOP, S&C funding & LCAP Overview including Goals/Actions, sharing LCAP survey link</p> <ul style="list-style-type: none"> • LCAP Goal 1.2 All Academic Interventions and Program Materials: Discussed student progress expectations, NWEA testing growth and performance data • LCAP Goal 1.3 Tutoring and Supports for Students: Discussed receiving extra academic support during weekend study hall hours • LCAP Goal 1.5 Student Activities: Discussed Shaver Lake trip and eligibility • LCAP Goal 3.1 Student Retention: Discussed "Finish Strong" Fridays as mandatory credit recovery intervention <p>Quarter 2 - 11/20/25 Agenda Topics: Mid-year LCAP, LREBG in LCAP</p> <ul style="list-style-type: none"> • Discussed progress on metrics for all 4 goals • LCAP Goal 1.8 LREBG Intervention programs and support personnel to support students: Discussed expanding

Educational Partner(s)	Process for Engagement
	<p>academic and social emotional support, extending hours, and SGI</p> <ul style="list-style-type: none"> • LCAP Goal 1.5 Student Activities: Discussed Magic Mountain field trip, build-a-can tree event, eligibility criteria • LCAP Goal 2.1 College and Career-readiness: Discussed academic progress, expectations, and timelines towards graduation • LCAP Goal 3.1 Student Retention: Discussed Fridays as attendance mandatory credit recovery intervention • LCAP Goal 4.3 Educational Partner Engagement: Measurements/feedback built into school survey <p>Quarter 3 - 2/12/26 Agenda Topics: CA School Dashboard, CSI, Differentiated Assistance</p> <ul style="list-style-type: none"> • Discussed results from the CA School Dashboard and how it feeds into our LCAP metrics as a measure of goal progress • LCAP Goal 1.2 All Academic Interventions and Program Materials: Discussed Differentiated Assistance and how the process is tied to LCAP academic interventions, NWEA, and SGI as an intervention • LCAP Goal 1.4 Counseling Students Towards Graduation and Materials: Discussed details around upcoming ceremony deadlines, grad plan • LCAP Goal 2.1 College and Career-readiness: Discussed spring assessments including NWEA, CAASPP, and how they affect the Dashboard and the LCAP <p>Quarter 4 - 4/16/26 Agenda Topics: 26/27 LCAP draft, Graduation Information, Student Academic Progress</p> <ul style="list-style-type: none"> • LCAP draft shared with parents, discussed goals and actions, changes for next school year • LCAP 1.5 Student Activities: Discussed upcoming grad night, Disneyland Imagineering Workshop trip • LCAP 1.2 - All Academic Interventions and Program Materials: Discussed NWEA growth, credit completion, math & ELA growth, highlighted student successes

Educational Partner(s)	Process for Engagement
<p>ELAC/ English Learner Advisory Committee</p>	<p>We prioritize meaningful two-way communication with both students and parents to ensure their voices inform our programmatic decisions. We actively encourage participation in our ELAC meetings, where we invite our educational partners to share their perspectives and provide feedback. Our English Learner Advisory Committee meetings were held on the following dates, with the listed discussion topics:</p> <p>Quarter 1 - 8/14/25 Agenda Topics: BOP, S&C funding & LCAP Overview including Goals/Actions, sharing LCAP survey link</p> <ul style="list-style-type: none"> • LCAP Goal 1.1 - Discussed reclassification & ELPAC, the importance of testing and the structure • LCAP Goal 1.2 All Academic Interventions and Program Materials: Discussed student progress expectations, NWEA testing growth and performance data • LCAP Goal 3.1 Student Retention: Discussed Fridays as mandatory attendance for credit recovery intervention • LCAP Goal 4.1 Meaningful School Activities: Shared Immigration resources for parents in response to political activity <p>Quarter 2 - 11/13/25 Agenda Topics: Mid-year LCAP, LREBG in LCAP</p> <ul style="list-style-type: none"> • Discussed progress on metrics for all 4 goals • LCAP Goal 1.1 English learner support staff, interventions, and materials - Discussed reclassification & ELPAC, the importance of testing and the structure • LCAP Goal 1.8 LREBG Intervention programs and support personnel to support students: Discussed expanding academic and social emotional support, extending hours, and SGI • LCAP Goal 2.1 College and Career-readiness: Discussed the State Seal of Biliteracy and how it looks good to colleges and prospective employers • LCAP Goal 4.3 Educational Partner Engagement: Measurements/feedback built into school survey <p>Quarter 3 - 2/5/26 Agenda Topics: CA School Dashboard, CSI, Differentiated Assistance</p>

Educational Partner(s)	Process for Engagement
	<ul style="list-style-type: none"> • Discussed results from the CA School Dashboard and how it feeds into our LCAP metrics as a measure of goal progress • LCAP Goal 1.1 English learner support staff, interventions, and materials - Discussed reclassification & ELPAC, the importance of testing and the structure • LCAP Goal 1.3 Tutoring and Supports for Students: Discussed the availability of extra support during after-hours and weekend study hall tutoring • LCAP Goal 1.5 Student Activities: Discussed Shaver Lake trip, grad night • LCAP Goal 2.1 College and Career-readiness: Discussed the State Seal of Biliteracy and how it looks good to colleges and prospective employers, also discussed dual enrollment & CTE • LCAP Goal 3.1 Student Retention: Discussed Fridays as mandatory attendance for credit recovery intervention <p>Quarter 4 - 4/23/26 Agenda Topics: 26/27 LCAP draft, Graduation Information, Student Academic Progress</p> <ul style="list-style-type: none"> • LCAP draft shared with parents, discussed goals and actions, changes for next school year. • LCAP 1.5 Student Activities: Discussed upcoming grad night, Disneyland Imagineering Workshop trip • LCAP 1.2 - All Academic Interventions and Program Materials: discussed NWEA growth, credit completion, math & ELA growth, highlighted student successes
Teachers and Staff	<p>Teachers and staff collaborate once a month during PLC to discuss school goals. They meet in small teams to discuss progress on academic goals such as Goal 1.1 EL Interventions across subject areas and 2.1 college and career-readiness. They work together to layer in tutoring support as part of Goal 1.3. They engage in curriculum review, tied to Goal 2.4, and they discuss academic engagement related to Goal 3 for student retention. Additionally, they discuss learnings from Professional Developments from Goal 2.2 and 1.7 with a focus on applying learnings to target student groups. All PLCs are led by a school administrator who facilitates the discussion</p>

Educational Partner(s)	Process for Engagement
	<p>and documents feedback that is used to shape the goals and actions within the LCAP.</p> <p>This year staff have met on the following dates: 7/14/25 8/11/25 9/8/25 10/24/25 12/1/25 1/30/26 2/27/26 4/24/26</p>
Principals	<p>Principals meet with the Area Superintendent every two weeks to review and analyze data related to our LCAP Goals and Actions. Their analysis includes academics, attendance, graduation rates, English learner progress, and other metrics that build a comprehensive picture of supports for our unduplicated student population. This is part of a continuous cycle of improvement that is driven by data and collaboration. The Principal group is also focused on addressing student needs that are identified in their meetings, aligning their local objectives with strategic actions and outcomes, and developing intervention strategies that are effective in increasing collaboration among staff for students' academic success and ultimate graduation. This work directly informs LCAP actions and spending decisions by identifying where resources, staffing, and targeted supports are most needed to improve student outcomes. Insights from these data cycles help ensure that investments are strategically aligned to the needs of unduplicated students and that funded actions are continuously monitored, adjusted, and refined for maximum impact.</p>
Administrators	<p>Administrators and leadership team members meet biweekly to review LCAP actions, analyze key data including CSI metrics, Differentiated Assistance processes, and student performance, and adjust programs to better meet student needs. These data-driven discussions focus on progress monitoring, strategic implementation of site initiatives, and the effective use of LCAP funds to improve</p>

Educational Partner(s)	Process for Engagement
	<p>outcomes, particularly for unduplicated students, within a cycle of continuous improvement.</p> <p>At Regional Summits held on January 15-16 and on April 29 - May 1, the leadership team also participated in a planning retreat to strengthen vision alignment, refine processes, and set goals. Key focus areas included English Learner and LTEL progress, calendar planning, LCAP budgeting, and aligning leadership priorities with LCAP goals.</p>
Students	<p>Students actively participated in consultation and shared decision-making through quarterly Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC) meetings, the Food 4 Thought series, and one-on-one sessions with counselors and school administrators. Through PAC and ELAC meetings, students provided valuable insights on programs and services related to LCAP and CSI, cultivating a collaborative approach to school planning. Their involvement in the Food 4 Thought series with the Superintendent also offered a platform to represent peers, voice concerns, and influence school decisions, while building leadership, communication, and problem-solving skills.</p> <p>PAC meetings: 9/18/25 11/20/25 2/12/26 4/16/26</p> <p>ELAC meetings: 8/14/25 11/13/25 2/5/26 4/23/26</p> <p>Food 4 Thought series: 9/12/25 10/20/25 2/26/26</p>

Educational Partner(s)	Process for Engagement
SELPA/Special Education Local Plan Area	<ul style="list-style-type: none"> • Our SELPA Compliance Officer vetted our LCAP this year and stated that no changes were required. • The EI Dorado Charter SELPA participates and provides guidance in the CDE’s Special Education Monitoring Processes. • The EI Dorado Charter SELPA provides program and technical support by the Program Specialist and/or other SELPA team members. • Dropout (and Graduation), post-secondary outcomes data for special education students are reviewed in a collaborative process with the EI Dorado Charter SELPA. • Guidance for developing and monitoring transition plans for students with disabilities is regularly offered and available from the EI Dorado Charter SELPA. • Classified and Certificated Staff training related to special education students is provided by the EI Dorado Charter SELPA as needed and requested. • The EI Dorado Charter SELPA requests the participation of parents of students with disabilities in the SELPA Community Advisory Committee (CAC). • The SELPA Program Specialists were provided a copy of the LCAP for consultation on the alignment of LCAP activities with the annual assurances support plan.
School Board	<p>Our school board receives regular reports and updates on the progress of the LCAP throughout the school year. The following school board dates includes presentations on the LCAP. The presentations included:</p> <ul style="list-style-type: none"> • December 8, 2025: Sharing of the LCAP Mid-Year Report with Learning Recovery Emergency Block Grant Update.

Educational Partner(s)	Process for Engagement
	<ul style="list-style-type: none"> • March 2, 2026: Sharing of the School Accountability Report Card, CA School Dashboard Report, Differentiated Assistance status, and CSI status • April 20, 2026: Sharing of the LCAP Goals and Metrics, LCAP Data Report, Annual Survey Report • June 1, 2026: Sharing of the 2025-2026 LCAP, which included the Budget Overview for Parents, Local Indicators Report, and the Comprehensive Support and Improvement (CSI) Plan
Public Comment	May 5, 2026 through May 22, 2026 the public comment period provided parents and members of the public the opportunity to submit comments regarding specific actions and expenditures proposed in the 2026-2027 LCAP.
Public Hearing	June 1, 2026 The meeting provided the public a period of time to come forward with any comments they might have about the LCAP, prior to its adoption by the charter school board.
LCAP Adoption by the Governing Board	June 2, 2026 The governing board adopted the 2026-2027 Local Control and Accountability Plan, which included the Budget Overview for Parents and the Comprehensive Support and Improvement Plan.
Budget Adoption and Local Indicator Report	June 2, 2026 The governing board adopted the 2026-2027 Budget, and they were presented with the Local Indicators Report.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The 2026–2027 LCAP was developed through an interactive process involving educational partners. Goals, actions, and the allocation of LCFF funds were shaped through community and partner consultation to address the needs of students as identified through required metrics, local indicators, and partner feedback. Updates and additions to the 2026–2027 LCAP reflect this collaborative process. The following summarizes educational partner feedback that guided the LCAP’s development.

Parents:

Goals 1.2 and 1.3: At our 2/5/26 ELAC meeting, after a review of the updated 2025 CA Dashboard data, parents agreed that expanding tutoring and SGI are important intervention strategies. They gave their approval after seeing the positive results our interventions had on key indicators such as ELA and math.

Goal 2.1: A parent at the 9/18/25 PAC meeting said that they would like to see an expansion of CTE opportunities. They suggested cosmetology/barbering and other trades. They also suggested refining the curriculum to include more hands-on learning and to be representative of job skills. This feedback helps shape our LCAP Goal 2.1 action for college and career readiness.

Students:

Goal 3.4: On-site at our Camarillo location on January 14th, a student asked me if there was any food in the back, since the student food pantry was empty. He said he was really hungry and was relying on the fresh food we have on-site when he arrived that day, but was worried when he found the fridge and the snack cabinets empty. We had food that we needed to restock that day, but the incident prompted a conversation with the principal about the increased food needs of our students. Since the need is so great, especially following the suspension of SNAP benefits, we will continue to provide nutrition using LCAP funds.

Goal 1.5: On 3/24/26 - One of our counselors shared that a student from Port Hueneme, who is also enrolled in SPED, has been very excited about the upcoming Disney Imagineering Workshop and has been asking for more information every few days. She said that many students were very eager about the trip. This encourages us to continue to offer a variety of student activities that promote engagement and connection to the school community.

LCAP 2.1: A student from our Santa Paula site who graduated from our program via the HiSET on 2/10/26 commented that he was so grateful for the alternative options to complete high school. He felt that because of pressures to work, it was important for him to finish the program efficiently so that he can focus on other responsibilities. This positive feedback highlights the importance of providing choices and avenues for success to meet individual student's needs in attaining college and career-readiness.

Administration:

Goal 2.2: On 1/15/26, at our Regional Collaboration, the administration team met to discuss streamlining and prioritizing professional development prior to the beginning of the next school year. Principals mentioned that there were many requests from staff throughout the year to participate in PDs, which we ultimately had to deny due to funding and logistical constraints. In conversation with our Curriculum and Instruction Coordinator, we developed a plan and sequence for professional development that has a clear purpose and pushes our instructional team toward an agreed-upon, data-driven goal for instruction and outcomes at our school. This will help prioritize where funding should be allocated and provide a clear outline for PDs, rather than requiring selections midyear.

Goal 2.3: At our 2/5/26 leadership meeting with administrators, managers, specialists, and coordinators, we discussed transitioning from hotspot devices to cellular Chromebooks. We reviewed the cost of maintaining secondary devices versus implementing more streamlined Chromebooks, as well as how the latter are more easily managed by the technology department. The hotspots, which are becoming obsolete, need to be replaced with a more user-friendly solution that allows for safety measures to be implemented for students and is more efficient in terms of management and cost-effectiveness. This transition highlights the importance of evolving our technology alongside our practices to support student learning. As a result, we will continue LCAP Goal 2.3 for technology and software.

Teachers:

Goal 3.2: Discussions with teachers during our 4/3/26 Access4All training highlighted the importance of student motivation in their work. Teachers shared that a student who met regularly with a counselor to work on managing anxiety began to feel more comfortable participating in class. They observed that the student's confidence grew over time, which led to the student asking more questions, completing assignments more consistently, and engaging more with peers. The positive socioemotional support led to improvements in their engagement as well as in academic performance.

Goal 3.3: At our 3/23/26 Regional Leadership meeting, the team discussed the importance of streamlining our contracts with a ride-share provider in order to negotiate more favorable rates, given the increased demand within our region and across our sister schools. We noted that providing this support has led to improved student attendance and engagement. The team also discussed unifying our contracts with the provider to strengthen our collective approach to securing more competitive pricing.

School Board Feedback:

Goals 1.2 and 2.1: Board members at our 12/8/25 board meeting provided feedback that they are happy to see progress on the CA School Dashboard and agree that the academic interventions we have in place are what is pushing our students towards graduation. They also commented on A-G completion and academic progress of seniors and would like to see an increase in college and career-readiness.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	<p>Increase Academic Progress:</p> <p>This is a focus goal for increasing academic progress for all students, especially our English language learners, low-income, and foster youth, who struggled during the previous year. In the next three years, we will have mitigated the negative impact learning loss had on our students, and we will see improvement in our NWEA, EL reclassification, credit completion and graduation rates.</p>	Focus Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 5: Pupil Engagement (Engagement)</p>
--

An explanation of why the LEA has developed this goal.

As a result of our CSI status and our analysis on key state and local data, we determined the need for a focus goal on academic performance for all our English language learners, low-income, and foster youth students. This new goal specifically addresses low key metrics such as credit completion and graduation for our student groups. We looked at our student group data, which reveal performance gaps between the "All" Student Group, and the English language learners, low-income, and foster youth students. Our students also take the NWEA MAP assessment, and we measure academic growth from year to year in this way. This year, performance gaps among student groups were also revealed, using that assessment. We understand the gaps that need to be closed for our students, and this focus goal was carefully designed to support their academic needs with targeted interventions and tutoring.

We sought the consultation of our educational partners, and involved them in the LCAP process, which we believe promotes positive engagement, buy-in and trust. We know that additional tutoring, interventions, and counseling support will help address learning loss over the next few years.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	Teachers are highly qualified– Priority 1	<p>98%</p> <p>Data Year: 23-24 LPs 1-7</p>	96% Qualified with Full Credential	97% Qualified with Full Credential	<p>100%</p> <p>Data Year: 26-27 LPs 1-7</p>	-1%

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal One supported the progress in meeting the following goal: Increase academic progress.

Action 1.1: English learners support staff, interventions, and materials

Implementation Status: 5 - Full Implementation and Sustainability

Our Literacy/ELD Teachers and EL Paraprofessionals have worked closely with ELs and LTELs through one-on-one and small group instruction to support academic progress. We successfully enrolled and supported students in an English Intensive curriculum and monitored growth in reading comprehension every 6–8 weeks using the Reading Inventory Assessment. Additionally, we strengthened support for English learners through a focused emphasis on ELs within our Differentiated Assistance efforts. There was no substantive difference between the planned actions and the actual implementation.

Actions 1.2: All academic interventions and program materials

Implementation Status: 5 - Full Implementation and Sustainability

We provided academic support and program materials to help students make progress toward graduation. By utilizing programs such as IXL and tailoring instruction based on NWEA strands, we addressed students' individual areas of need to support progress toward grade-level proficiency. Additionally, our Network Improvement Team engaged in Technical Assistance to target interventions in both ELA and math. In our next cycle of Differentiated Assistance, we will prioritize math intervention through small group instruction (SGI), with a particular emphasis on supporting students with disabilities. There was no substantive difference between the planned actions and the actual implementation.

Action 1.3: Tutoring and supports for students.

Implementation Status: 5 - Full Implementation and Sustainability

Our CSI Improvement Team met quarterly throughout the school year to discuss progress on our CSI SMART Goal as part of our Plan-Do-Study-Act cycle. We used tutoring KPI data to analyze participation and performance trends relative to our CSI implementation. Our strategy was to direct tutors to circulate the room often and to meet with at least three new students each week. We realized a 20% increase in the average percentage of students tutored by LP 8. This exceeded our goal of a 12% increase. Our average credit completion for students participating in tutoring was 3.64 and was 0.37 credits higher than those students who didn't receive tutoring. Our next steps will be to extend tutoring into evening and weekend sessions. There was no substantive difference between the planned actions and the actual implementation.

Action 1.4: Counseling students towards graduation and materials

Implementation Status: 5 - Full Implementation and Sustainability

Our counselors work collaboratively with teachers and staff to provide comprehensive support for our students. They focus on social-emotional well-being and post-secondary planning, including FAFSA assistance and college and career guidance. We also expanded opportunities for student engagement and wellness through arts and crafts activities, music-based enrichment, and increased access to resources to further support students' emotional and mental health. Actions to counsel students toward graduation were implemented as planned with no substantive differences.

Action 1.5: Student activities that increase learning efforts

Implementation Status: 5 - Full Implementation and Sustainability

We firmly believe that student activities promote engagement and learning. Students participated in Pathways trips, Grad Night, a school dance, local field trips, and on-site activities. These events helped promote social engagement and a stronger sense of connectedness to the school community. There was no substantive difference in the planned action compared to the actual implementation.

Action 1.6: Teachers and staff are qualified and appropriately assigned

Implementation Status: 5 - Full Implementation and Sustainability

We aim to hire fully credentialed teachers for every subject area and carefully monitor their assignments to ensure there are no misassignments each year. By maintaining this focus on highly qualified staff, we support consistent, high-quality instruction for all students. There was no substantive difference between the planned actions and the actual implementation.

Action 1.7: Professional development for English learners

Implementation Status: 5 - Full Implementation and Sustainability

Staff participated in EL focused professional development opportunities such as the Multilingualism Leadership Seminar and the CABE Conference. These experiences deepened their understanding of culturally responsive practices and reinforced the importance of inclusive instruction. Additionally, staff applied principles of Universal Design for Learning (UDL) to create flexible, accessible learning experiences that meet the diverse needs of ELs and LTELs. Actions were implemented as planned.

Action 1.8: LREBG - Intervention programs and support personnel to support students

Implementation Status: 5 - Full Implementation and Sustainability

We have received LREBG funds and are fully expending these funds to provide extended learning time for students. A review of student needs and related data has identified this as a high-priority area. Funds will primarily support extended learning opportunities to help close learning gaps for EL, LTEL, FY, and LI students. As needed, resources may also be used to expand intervention programs, including tutoring and small group instruction, and to strengthen social-emotional supports to ensure students remain engaged, supported, and on track for graduation.

Overall Successes: We provided a rigorous and comprehensive academic program supported by intentionally designed systems of intervention to meet diverse student needs. Educational staff engaged in targeted professional learning through Professional Learning Communities (PLCs), UDL, and Access4All to ensure that instructional programs, practices, and services seamlessly align and promote success for all students. We implemented targeted academic interventions and utilized tools such as IXL and Illuminate to deliver personalized support and monitor student progress. As a result, we saw an increase in average credit completion and overall graduation rates, demonstrating the positive impact of these actions on student achievement.

Overall Challenges: Despite strong implementation across actions designed to increase academic progress, we are still experiencing slow growth in student outcomes. All actions were implemented with fidelity and reached sustainability, data from measures such as NWEA reveal persistent academic gaps, particularly in mathematics and especially among students with disabilities, as well as English learners and low-income students. Though we have made notable gains on the CA School Dashboard, having increased a level in both math and ELA indicators, we are still a distance away from meeting grade-level expectations. The actions we've taken and the processes we've put in place are only in their infancy and we are in the early stages of closing achievement gaps. These challenges highlight the need for more targeted, data-driven interventions, particularly in math, to ensure all students make continued academic progress.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards our English language learners, low-income, and foster youth students. We were able to meet our budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal One helped make progress towards the LEA's goal: Improve student academic achievement.

Action 1.1: English learners support staff, interventions, and materials

Effectiveness of Action: 3 - Effective

Metrics: English learner Progress Indicator and Reclassification Rate

Analysis Statement: As noted in the metrics section above, our ELPI status was green on the CA School Dashboard, having increased by 7.9%. Our EL reclassification rate is 18% and is well above our target outcome. These outcomes are exceptional, given the nature of our credit recovery program. With an English Language Development Specialist at the head of our robust ELD/Literacy department, we were able to better organize teacher support, professional development, and monitoring of state and internal assessments. These extra layers of support have allowed our English learners and LTELs to make strong academic progress.

Action 1.2: All academic interventions and program materials

Effectiveness of Action: 2 - Somewhat Effective

Metric: NWEA MAP

Analysis Statement: As noted in the metrics section above, our NWEA scores remain at similar levels to baseline and to year 1. We saw modest improvement in Reading Lexile, with our foster youth student group showing the most growth with a 45.85 point gain. All students groups demonstrated at least some growth over baseline, except for students with disabilities who declined by 11.12 points. We see similar declines in math, with only the foster youth student group showing an increase of 38.54 points over baseline. Our Differentiated Assistance

Team partnered with a county lead to conduct a data-driven needs assessment and identify root causes of learning gaps. We are beginning to build the capacity of our math teachers to expand course offerings through a small group instruction (SGI) model, with a focus on targeted intervention for our highest-need students. Research supports SGI as an effective approach for increasing access to grade-level curriculum. By strengthening structures and interventions within the math program, we can ensure consistent access to high-quality instruction that builds student proficiency and leads to improved outcomes, particularly for our highest-need students.

Action 1.3: Tutoring and supports for students

Effectiveness of Action: 3 - Effective

Metric: Credit Completion Rates

Analysis Statement: As noted in the metrics section above, our credit completion shows an increase over baseline for every student group. Most notable in this growth is the FY student group who more than doubled their credit completion. Throughout the school year, our CSI Improvement Team met to review progress on participation and credit completion. From the beginning, we centered our efforts on a simple but powerful strategy: tutors would stay in motion, circulating the room with purpose and making sure to connect with new students regularly. By Learning Period 8, we reached a 38% average of students working with a tutor. Students who participated in tutoring completed an average of 3.64 credits, outperforming their non-tutored peers by 0.37 credits. Looking ahead, we want to build on this progress and expand tutoring hours to increase access.

Action 1.4: Counseling students towards graduation and materials

Effectiveness of Action: 3 - Effective

Metric: DASS 1-Year Graduation Rate

Analysis Statement: As noted in the metrics section above, our one-year graduation rate shows that all student groups are graduating at high levels, with most showing double-digit increases in graduation percentages. Our DASS Graduation Rate was 91% for the All student group, and we increased by +15.10 percentage points from our baseline. The EL student group realized the greatest growth with a 25.2% increase and a final graduation percentage of 95.8%. Our team of counselors, social workers, and other social-emotional support staff ensure that students receive consistent guidance, timely interventions, and a safe space to navigate both academic and personal challenges so that they can experience success in our program.

Action 1.5: Student activities that increase learning efforts

Effectiveness of Action: 3 - Effective

Metric: Credit Completion Rate

Analysis Statement: As noted in the metrics section above, credit completion has improved across all student groups. We increased from a baseline of 2.09 to 3.42 - increased to 2.69—a 63.6% gain. We believe that student activities play a meaningful role in supporting academic growth. When students participate in these activities, they feel more connected to the school community, which strengthens their well-being, confidence, and motivation to succeed. Additionally, because many activities include minimum academic requirements, they naturally become both a goal for students to work toward and a reward for their efforts. This structure reinforces a sense of accomplishment and encourages stronger academic performance. Student activities continue to be a valued part of our school culture, and the positive feedback we consistently receive from students and families reinforces the importance of offering these opportunities.

Action 1.6: Teachers and staff are qualified and appropriately assigned

Effectiveness of Action: 3 - Effective

Metric: Highly Qualified with Full Teaching Credential

Analysis Statement: As noted in the metrics section, 97% of our teachers are highly qualified and appropriately assigned. We always aim to hire fully credentialed teachers who bring deep content knowledge and strong pedagogical training. This directly supports higher-quality instruction and more consistent academic growth for students. Their expertise also allows them to identify learning needs early, implement effective interventions, and create stable, supportive classroom environments where students can thrive.

Action 1.7: Professional development for English learners

Effectiveness of Action: 3 - Effective

Metric: English Learner Progress Indicator

Analysis Statement: As noted in the metrics section above, our ELPI is green on the CA School Dashboard, with 52.8% making progress. This is a 7.9 percentage point growth from baseline. Additionally, our EL Reclassification Rate is above the state average and EL credit completion and graduation rates have both increased from baseline. With professional developments such as CAFE, we have increased the capacity of teachers to support English learners and LTELs.

Action 1.8: LREBG - Intervention programs and support personnel to support students

Effectiveness of Action: 2 - Somewhat Effective

Metric: 1.3 Reading Lexile and 1.4 Mathematics Quantile

Analysis Statement: We will support our students who struggle with academic performance by providing intervention programs and support personnel to address their learning gaps. LREBG funding is directed towards academic and socioemotional interventions for all students as needed. The needs assessment substantiated findings from the 2024 Dashboard related to low academic performance in mathematics and English Language Arts. A review of state and local data, such as NWEA Map results, indicates that our students have average initial NWEA MAP scores at the following grade level: 1002.85 = 6th grade level in Reading and 770.46= 5th grade level in Mathematics. This action directly addresses the need to engage students with comprehensive interventions and academic support in order to improve their learning gaps. This action aligns with the allowable uses of LREBG funds in the areas of learning recovery programs to increase proficiency, tutoring, as well as others listed in the grant. Studies have shown that students who participate in tutoring and other socioemotional supports are more likely to realize gains in their academic performance. Additionally, research shows that students who engage in mathematics intensive tutoring demonstrate an increase in math scores by 0.19 to 0.31 standard deviations. We will monitor our students' participation in tutoring each learning period and use NWEA scores to assess performance.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 1.2: All academic interventions and program materials

This action did not have the full intended outcome based on the metrics outlined in Prompt 3. In response to feedback from our PAC, ELAC, and student input, we will continue to offer the action with adjustments informed by a collaborative evaluation and professional needs assessment. As part of our continuous improvement efforts, we identified that the limited impact was due in part to a lack of consistent, high-quality classroom support. Through the Differentiated Assistance process, we will build the capacity of teachers to implement evidence-based strategies from UDL and Access4All. Our focus will be on reading comprehension and math intervention through SGI. Adjustments to the action will be made to better support English learners, foster youth, and students with disabilities, with the goal of improving academic outcomes for these student groups in the upcoming year.

Action 1.8: LREBG - Intervention programs and support personnel to support students

Following a collaborative evaluation and needs assessment, we identified opportunities to strengthen the connection between NWEA MAP results and student performance in English Language Arts and mathematics. We recognize the importance of engaging students with comprehensive interventions and academic support in order to improve their learning gaps, including strengthening social-emotional supports to ensure students are engaged, supported, and on track for on-time graduation. Moving forward, possible adjustments will be to implement additional professional development, strengthen instructional strategies and student engagement, expand tutor support, close learning gaps for EL, LTEL, FY, and LI students, and refine intervention programs such as tutoring and small group instruction. Next steps include monitoring students' participation in tutoring each learning period and use NWEA scores to assess performance.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Long-term English learners (LTEL) and English learners support staff, interventions, and materials	<p>Our ELD program follows the CA EL Roadmap for effective practices, and we provide additional support for ELs struggling with academic proficiency. We will do the following:</p> <ul style="list-style-type: none"> • Increase opportunities for language acquisition through text-rich cooperative learning and oral communication. • EL Small Group Instruction (SGI). • Paraprofessionals in ELD SGI classes. • English learner tutors. • Individualized English Language Development Plan (IELDP). • Access to other effective intervention programs such as System 44. <p>Upon reviewing our local and state assessment data broken down by subgroup data, we have identified several performance and outcome gaps and general programmatic/instructional needs for the English learner student population. Our English learner students show the most opportunity for continued academic improvement based on the most current state and local ELA and Math data as reflected in the metric tables. Based on a local needs assessment we have found that our English learner students need additional support and scaffolds to be successful. We will address this need by providing an EL Paraprofessional or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD leads, support staff, ELD Small Group Instruction, and</p>	\$1,284,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>supplementary materials for the ELD program as needed. Students will receive individualized support based on their specific English proficiency level. We use an Individualized English Language Development Plan (IELDP) in collaboration with students and families. Implementing our Designated and Integrated English Language Development (ELD) program is a vital part of our school. We aim for every English learner to meet the linguistic and academic goals identified by their level of proficiency. ELs participate in Newcomer programs, Structured English Immersion or English language Mainstream, based on both academic progress and their capacity to successfully advance in their language acquisition. Support staff will provide specific language instruction through vocabulary and language development to support literacy skills and language acquisition. We anticipate the student performance on CAASPP Math and ELA, as well as on the English learner annual growth assessment will grow. This action is designed to meet the greatest needs of English learner students. Using real-time tracking, student language proficiency and academic progress will be monitored and we expect that their ELPAC scores, as well as the reclassification rate to increase as a result of the personalized academic support they will receive from qualified personnel.</p>		
1.2	All academic interventions and program materials	<p>Academic interventions will be provided for our English learners, LTELs, low-income and foster youth students struggling with academic proficiency which will help them improve their skills.</p> <p>This action will address the following reds on the CA Dashboard API:</p> <p>Math: All students, Hispanic, low-income</p> <p>Eligibility for Differentiated Assistance: Hispanic: Math, (Priority 4) LI: Math, (Priority 4) SWD: Math, (Priority 4)</p> <p>Student groups related to eligibility for Differentiated Assistance have average initial NWEA MAP scores at the following grade level. Math: LI: 731.73 = 3rd grade level</p>	\$1,437,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>To meet these needs, the LEA will provide the following:</p> <ul style="list-style-type: none"> • Small Group Instruction. • Ready 180, literacy interventions. • Math 180 and support. • Paraprofessional push-in and targeted tutoring. • Professional Learning Communities around this action to monitor effectiveness. • Access to other effective intervention programs. <p>As demonstrated in the Identified Needs and Metrics section, state and local assessments in ELA and Math indicate that some of our lowest performing students are the English learners, low-income and foster youth student groups when compared to the All student group. To address this gap, academic interventions will be provided for our English learners, low-income and foster youth students struggling with academic proficiency, which will help them improve their skills. Targeted instruction in small group settings or other effective intervention programs, such as Read 180 and Math 180, will accelerate their academic abilities. Students who participate in academic interventions will improve their learning gaps, as shown in their NWEA scores. We expect that these actions will be effective at increasing students' mathematics and reading assessments. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis. We expect our NWEA scores to increase each year.</p>		
1.3	Tutoring and supports for students	<p>Tutors will be provided for our English learners, LTEL, low-income, and foster youth students who need additional support in completing their coursework and earning credits toward graduation. This action supports our Comprehensive Support and Improvement plan. We will do the following:</p> <ul style="list-style-type: none"> • Tutors are available for additional support, both in-person and virtually. • Intensive tutoring for credit completion. • Improve tutor-student relationship to increase participation. • Access to SGI and paraprofessional support. 	\$1,485,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>To address our CSI status and improve our graduation rate, we will increase our tutoring support. This action is expected to reduce resource inequities among our lowest groups' graduation rates and credit completion rates. Some of our lowest credit completion rates and graduation rates are among the unduplicated student groups, as demonstrated in the Identified Needs and Metrics section. To address the achievement gaps, tutors will provide support for our English learners, low-income and foster youth students who are credit deficient. This will help them complete their assignments and increase the rate at which they finish their courses. Local tutors and virtual tutors are actively engaged in reaching out to our English learners, low-income and foster youth students. Tutors deliver a critical level of support that we have seen be successful in helping address academic gaps effectively and improve student progress towards graduation. We expect that these actions will increase graduation rates for our English learners, low-income and foster youth student groups. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our credit completion rate to increase each year.</p>		
1.4	Counseling students towards graduation and materials	<p>Counselors will be principally directed to promote high expectations and provide guidance toward graduation. Counselors will connect frequently with high-needs students to help meet social-emotional needs. Additionally, we will do the following:</p> <ul style="list-style-type: none"> • Review academic plans for core courses. • Ensure tutoring, academic interventions and progress monitoring are taking place. • Provide additional training on the Multi-Tiered, Multi-Domain Systems of Support (MTMDSS). MTMDSS provides tiered levels of school counseling instruction and data-driven intervention services that help address the needs of students in the areas of academic, college/career, and social/emotional development. • Counselors help address obstacles to graduation. • Additional counselors reduce the counselor-to-student ratio and allow for equity and improved access to resources. <p>Some of our lowest graduation rates are among the English learners, low -</p>	\$845,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>income and foster youth student groups when compared to the All student group. This is demonstrated in the Identified Needs and Metrics sections. To address these gaps, counselors will provide additional support to English learners, low-income and foster youth students. They will promote high expectations and provide support and guidance towards graduation. Counselors will connect with students and effectively monitor and guide students to achieve their graduation goals. We expect to continue providing counselors, who help address obstacles to graduation that English learners, low-income and foster youth students have; however, because we expect that all students could benefit, this action is provided on an LEA-wide basis. This action has been effective for many students in helping them successfully graduate and will increase graduation rates for our student groups each year.</p>		
1.5	Student activities that increase learning efforts	<p>Students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will do the following:</p> <ul style="list-style-type: none"> • Improve the coordination of integrated services and targeted academic interventions such as tutoring and literacy interventions. • Improve social connection and community building. • The school will acknowledge student achievement and celebrate student successes to gain buy-in. • The school will also boost student morale by increasing student-led events and activities, creating a positive learning environment. • Group activities that celebrate progress. • Enrichment experiences and field trips. <p>The English learners, low-income and foster youth students are often underperforming in their capacity for credit completion. The expected average is 4.0. To address this need, students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. This includes but is not limited to celebrations, field trips and enrichment experiences. We have witnessed how these actions can inspire students to continue to be productive and strive to accelerate their learning. We expect that these actions will have a</p>	\$60,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		positive impact on work completion rates. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis. We anticipate an increase up to 4 credits per learning period.		
1.6	Teachers and staff are qualified and appropriately assigned	<p>All students will have access to teachers who are fully credentialed and appropriately assigned to teach in their subject area of competence. Any teacher misassignments will be monitored and rectified, so that students are served according to the legal requirements.</p> <p>All students with disabilities will be provided a free, appropriate, public education, including all required designated instructional services outlined in their Individualized Education Plan as well as required by the education code and related regulations.</p>	\$12,827,813.00	No
1.7	Professional development to support English learners and LTELs	<p>Our ELD program follows the CA English learner Roadmap for effective practices, and we provide professional development for staff to help serve English learners and LTELs with their language acquisition. We will do the following:</p> <ul style="list-style-type: none"> • ELD Specialist and Lead Literacy Teacher will provide coaching directed at increasing student language acquisition. • Professional Learning Communities, workshops and conferences for staff. • Professional development for implementing the EL Tool Kit. • Professional development for effective EL strategies, such as SIOP. • Paraprofessionals in ELD SGI classes trained. • EL tutors trained. • Training in Individualized English Language Development Plan (IELDP), as necessary. <p>Our English language learners' reclassification rate is above the state average. To continue this, we will need additional support from faculty and support staff who employ effective strategies that will help improve students' ELPAC scores. To address this need, students will be served by trained EL Paraprofessionals or other trained bilingual support personnel.</p>	\$1,200.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Supports include, but are not limited to, EL tutors, ELD leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Trainings could include, but are not limited to, developing an EL Tool Kit, implementing effective EL strategies using SIOP (Sheltered Instruction Observational Protocol), and scaffolding strategies such as modeling, building schema, contextualization, and others. Additionally, workshops, conferences and Professional Learning Communities provide information that will build the capacity of faculty and staff to increase student performance. We expect that our English learners' ELPAC scores, as well as the reclassification rate, will increase as a result of the personalized academic support and attention they will receive from qualified personnel.</p>		
1.8	LREBG - Intervention programs and support personnel to support students	<p>We will support our students who struggle with academic performance by providing intervention programs and support personnel to address their learning gaps. LREBG funding is directed towards academic and socioemotional interventions for all students as needed. The needs assessment substantiated findings from the 2024 Dashboard related to low academic performance in mathematics and English Language Arts. A review of state and local data, such as NWEA Map results, indicates that our students need support in the areas of English Language Arts and mathematics. This action directly addresses the need to engage students with comprehensive interventions and academic support in order to improve their learning gaps. This action aligns with the allowable uses of LREBG funds in the areas of learning recovery programs to increase proficiency, tutoring, as well as others listed in the grant. Studies have shown that students who participate in tutoring and other socioemotional supports are more likely to realize gains in their academic performance. Additionally, research shows that students who engage in mathematics intensive tutoring demonstrate an increase in math scores by 0.19 to 0.31 standard deviations. We will monitor our students' participation in tutoring each learning period and use NWEA scores to assess performance.</p>	\$187,642.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	<p>Students Will Gain Skills for College and Career-Readiness:</p> <p>This is a broad goal for helping students gain skills for college and career-readiness for all students, including low-income, English learners, and foster youth students.</p>	Broad Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 2: State Standards (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 7: Course Access (Conditions of Learning)</p> <p>Priority 8: Other Pupil Outcomes (Pupil Outcomes)</p>
--

An explanation of why the LEA has developed this goal.

This goal was developed with the special needs and interests of our unique student population. Most of our students choose our independent study program to change their story and increase their viability after graduation. We support their interests in pursuing a career through our CTE coursework and partnerships. Everyone receives state standards aligned curriculum and we encourage students who are college bound to meet the A-G requirements. Year over year, we expect these metrics to show improvement for all of our student groups.

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Two supported the progress in meeting the following goal: Students Will Gain Skills for College and Career-Readiness.

Action 2.1: Career and college-readiness for English learners, low-income, and foster youth students

Implementation Status: 4 - Full Implementation

Through dual enrollment with community colleges and CTE programs at Ventura County’s Career Education Center, students have access to courses like welding, culinary arts, and auto mechanics, as well as programs such as EMS Corps, providing meaningful exposure to post-secondary pathways. Participation is growing, and while measurable outcomes are still developing, these opportunities lay a strong foundation for future student success.

Action 2.2: Professional development addressing English learners, low-income, and foster youth students

Implementation Status: 5 - Full Implementation and Sustainability

Professional development through trainings, conferences, workshops, and collaboration within our Professional Learning Communities (PLCs) has been valuable in building the capacity of teachers and staff to effectively support students. These efforts have emphasized

meeting the unique learning needs of English learners, low-income students, and foster youth. Ongoing collaboration in PLCs allows educators to share best practices, engage in reflective dialogue, and refine instructional strategies, ensuring that all students receive the targeted support they need. This action was implemented as planned, with no substantive differences.

Action 2.3: Technology access and support

Implementation Status: 5- Full Implementation and Sustainability

Students have a 1:1 technology ratio and use a variety of digital tools, including Chromebooks, styluses, SMART Boards, text-to-speech features, and a range of software and learning platforms to enhance their learning and engagement. These resources allow students to access instructional materials both in the classroom and at home, ensuring they remain connected to their education. This action was implemented as planned, with no substantive differences.

Action 2.4: Support for standards-based curriculum and instruction

Implementation Status: 5- Full Implementation and Sustainability

Standards-aligned curricula are regularly reviewed and updated, with coaching provided in all subject areas to support effective implementation. This ensures teachers have access to current resources and strategies to address the diverse learning needs of all students. Instruction incorporates Universal Design for Learning (UDL) principles, and strategies from Access4All to ensure all students can engage with the curriculum equitably. All actions were implemented as planned, with no substantive differences.

Action 2.5: Educational materials for an effective program

Implementation Status: 5- Full Implementation and Sustainability

All students have access to textbooks and curriculum materials both at school and at home. Supplemental learning resources are regularly updated and replenished to support students' evolving needs. This action was implemented as planned, with no substantive differences.

Action 2.6: Safe and secure facilities

Implementation Status: 5- Full Implementation and Sustainability

Our facilities provide safe, clean, and modern learning environments that welcome students, families, and community partners. Each site is reviewed annually using the Facility Inspection Tool to ensure consistent maintenance and operational standards. This action was implemented as planned, with no substantive differences.

Overall Successes: Our school was able to successfully implement our college and career readiness actions, providing students with expanded opportunities to combine academic knowledge with technical skills for post-graduation success. Our continued efforts to expand and strengthen relationships with local businesses, trade schools, and community colleges is evident in our partnership with Ventura County Office of Education's Career Education Center and our collaborations with the EMS Corps and Goodwill Industries for students to take part in their apprenticeship programs. We also have established agreements with the Ventura County Community College District, West Hills Community College, and Chaffey College so that students have access to a broad range of college-level courses and experiences. These efforts demonstrate growth in student participation and engagement, laying a strong foundation for future academic and career achievement.

Overall Challenges: Although our college and career readiness actions are fully implemented, many students remain credit-deficient, which limits their ability to fully meet college readiness criteria. This is reflected in statewide assessment scores and A–G completion rates.

Participation in CTE and dual enrollment courses has steadily increased, and students have access to a broad range of career and post-

secondary pathways, but the program has not achieved its full potential. We are considering adding a position for a JAG Specialist who will support student retention, career pathway completion and readiness for post-secondary experiences. This added layer of support could potentially be key to helping students translate opportunities into measurable achievement.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards our English language learners, low-income, and foster youth students. We were able to meet our budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal Two supported the progress in meeting the following goal: Students Will Gain Skills for College and Career-Readiness.

Action 2.1: Career and college-readiness for English learners, low-income, and foster youth students

Effectiveness of Action: 3 - Effective

Metrics: Work Readiness and CTE courses, CTE and A-G

Analysis Statement: As noted in the metric section above, our data show that we increased participation in career-ready courses by 55 students. Completion of the Professional Skills course also increased by 101 students. Our CTE course completion rate grew 2.8% from baseline and we maintained our level of seniors completing A-G courses. Although many of our students are focused on credit recovery, it is encouraging to see modest growth in college & career-readiness.

Action 2.2: Professional development addressing English learners, low-income and foster youth students

Effectiveness of Action: 2 - Somewhat Effective

Metrics: CAASPP for English language Arts and Math

Analysis Statement: As noted in the metrics section above, our CAASPP scores highlight the significant learning gaps our students have. Many students at Vista Real enroll with substantial credit deficiencies, which contribute to these academic gaps. Despite this, CAASPP data shows that the Hispanic student group increased 4% over baseline and 5% from year 1, while students with disabilities increased 1% from baseline and 2% from year 1. The professional development opportunities we engage in help us identify and address these gaps, allowing us to more effectively engage students in their learning and support their academic growth. Moving into the new school year, we will have a stronger focus on math PDs, especially in the area of small group instruction.

Action 2.3: Technology access and support

Effectiveness of Action: 3- Effective

Metric: 100% of students offered Chromebook and hotspot upon enrollment

Analysis Statement: As noted in the metrics section above, all of our students receive Chromebooks, hotspots, and styluses as needed upon enrollment so that they can complete coursework. Additionally, we have a wide variety of software and resources including Kami, IXL, and Illuminate so that students have the most up to date technology and are learning on modern platforms.

Action 2.4: Support for standards-based curriculum and instruction

Effectiveness of Action: 3- Effective

Metric: CDE Standards Implementation Rubric

Analysis Statement: As highlighted in the metrics section above, our high-quality, standards-aligned curriculum remains effective, reflected by a 4.02 implementation score on the CDE Standards Implementation Rubric. Our curriculum and PLC teams regularly review and update materials to ensure content is relevant and accessible for all students. Additionally, coaching across all subjects is provided by our Regional Instructional Specialists, under the guidance of our Curriculum and Instruction Coordinator.

Action 2.5: Educational materials for an effective program

Effectiveness of Action: 3- Effective

Metric: Regional Monitoring by Instructional Specialists

Analysis Statement: As noted in the metrics section above, all of our sites have adequate materials that are regularly monitored by Regional Instructional Specialists. We continue to use state adopted textbooks, we have curriculum teams to monitor and update learning materials, and we supplement students' needs with classroom supplies, manipulatives, lab materials, and additional learning resources.

Action 2.6: Safe and secure facilities

Effectiveness of Action: 3- Effective

Metric: Facilities Inspection Tool (FIT)

Analysis Statement: As noted in the metric section above, our Facility Inspection Tool showed that all of the areas earned an exemplary rating. Our learning centers are clean, safe, and modern. Design, layout, and furniture are conducive to learning and all sites are in easy to access locations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 2.2: Professional development addressing English learners, low-income and foster youth students

This action did not have the full intended outcome based on the metrics outlined in Prompt 3. In response to feedback from our PAC, ELAC, and student input, we will continue to offer the action with adjustments informed by a collaborative evaluation and professional needs assessment. We identified contributing factors to the limited effectiveness of this action to be ongoing needs for targeted and specialized training on specific topics such as Mathematics and effective English learner instructional practice, strengthened progress monitoring, and structured interventions. A deliberate approach using the Professional Learning Communities model and data-driven decision making to incorporate research-based instructional strategies for scaffolding learning and assignment of interventions will promote academic progress.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Career and college-readiness for English learners, low-income, and foster youth students	<p>To address the need to increase college and career readiness for our unduplicated students, we will do the following:</p> <ul style="list-style-type: none"> • Ensure comprehensive review of course placement. • Counselors support career and college-ready efforts. • CTE programs and pathways encouraged. • WIOA job training and placement. <p>-College and Career days, as well as field trips.</p> <p>Some of our lowest career and college-readiness rates are among the English learners, low-income and foster youth student groups who are all below the state average of 16.3% for graduates completing a CTE pathway. They were also below the state average of 43.8% completing A-G courses. Our English learners, low-income and foster youth students, need to be prepared to pursue a career or attend college. To address this need, our students engage in career exploration and Professional Skills, and have the opportunity to take college dual enrollment courses and career education courses at the county Career Education Center. We take into consideration local employment opportunities and student interests to help guide students into coursework that is valuable. Support personnel, staff, partnerships, and materials are essential to tailor and implement the curriculum for students. We have witnessed our students be successful in these programs. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on our college and career readiness rates for our students and we expect to increase A-G and CTE each year.</p>	\$323,000.00	Yes
2.2	Professional development addressing English learners, low-income, and foster youth students	<p>Staff participate in professional learning throughout the year that targets our unduplicated student groups. We will do the following:</p> <ul style="list-style-type: none"> • Increase professional learning opportunities and collaboration. • Regional trainings, workshops/seminars. • Report on training outcomes. • Best practices shared in PLC. • Outside conferences that have an impact on At-promise youth. 	\$125,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>As demonstrated in the Identified Needs and Metrics sections, CAASPP results in the ELA, math and science assessments, and CA Dashboard results show that many of our lowest performing students are the English learners, low-income and foster youth student groups when compared to the All student group. To address this issue, professional development for our teachers and staff will be essential in progressing our English learners, low-income and foster youth students. Trainings, conferences, workshops, and Professional Learning Communities provide information to address our English learner students' academic and social-emotional needs. We have seen a positive impact on our At-Promise students with additional staff training, such as trauma-informed practices. We anticipate that with the increase in professional collaboration and learning, state assessment results for our English learners, low-income and foster youth will also increase. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on students with CAASPP scores and the CA Dashboard status improving by 1 level.</p>		
2.3	Technology access & support	<p>All English learners, LTELs, low-income, and foster youth students will have access to effective technology platforms and support programs. This is an ongoing effort to help them access curriculum and instructional support. We will do the following:</p> <ul style="list-style-type: none"> • Upon enrollment, provide every student with a computer. • Provide every student with a hotspot. • Provide students and teachers with tech support to ensure access to curriculum and instruction. <p>All English learners, low-income and foster youth students will have 100% access to the curriculum and instructional supports. We know this involves access to effective technology platforms and support programs. This is an ongoing effort in helping them to access their curriculum and instructional supports. We have seen success with teachers and staff continually supporting students' access to technology, and we will continue to provide training and materials to close any gaps. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We</p>	\$219,540.00	Yes

Action #	Title	Description	Total Funds	Contributing
		expect that these actions will have a positive impact on our students, by sustaining 100% access to their educational program.		
2.4	Support for standards-based curriculum and instruction	<p>All English learners, LTELs, low-income, and foster youth students will have access to high-quality standards-aligned curriculum and instruction that is continually improving. We will do the following:</p> <ul style="list-style-type: none"> • Participate in local curriculum review. • Engage in dialogue in collaborative groups. • Provide input on aligning standards to instructional practices. • Analyze data results to develop and improve practices and processes. <p>All English learners, low-income, and foster youth students will have access to high-quality, standards-aligned curriculum and instruction that is continually improving. The implementation score for our standards-based curriculum is 4.13, based on the CDE Standards Implementation Rubric. To address this, regional and site personnel will continue to collaborate and develop a high quality, customized curriculum, and provide coaching to support implementation for the unique needs of our student groups. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on our educational program resulting in a score of 5.0 on the CDE rubric.</p>	\$2,744,171.00	Yes
2.5	Educational materials for an effective program	All students will have access to all materials to participate fully in enrolled courses. An effective education program relies on quality materials for all subject areas. We continue to purchase state-adopted texts and update supplemental materials regularly, so that they meet our students' academic needs.	\$11,225,216.00	No
2.6	Safe and secure facilities	We provide learning facilities for our students that are safe and secure. We monitor our sites each year using the Facility Inspection Tool (FIT).	\$2,844,840.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	<p>Increase Student Retention:</p> <p>This is a maintenance goal for student retention. It is designed to continue the success we have had with addressing student disengagement from their schooling and supporting their decision to either rematriculate or graduate through our program. We have safe and welcoming facilities, with a positive school climate, which effectively encourages students to remain engaged in their schooling experience.</p>	Maintenance of Progress Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 5: Pupil Engagement (Engagement)</p> <p>Priority 6: School Climate (Engagement)</p>

An explanation of why the LEA has developed this goal.

<p>We measure our core program through the high rate of retention, graduation and students who rematriculate back to their school of residence. Our mission is to successfully help students make the turn away from dropping out of school. We have teachers and staff who are specially trained in trauma-informed practices and they know how to effectively address student retention. In consultation with students, families, and staff, we will continue to provide a collaborative educational environment for the success of our students.</p>

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Three supported the progress in meeting the following goal: Increase Student Retention.

Action 3.1: Student retention

Implementation Status: 4- Full Implementation

Our Student Retention Specialists continue to engage students through home visits, intervention meetings, and regular progress monitoring to support consistent attendance and participation. The student services team closely tracks academic performance, providing individualized support and encouragement to help students stay engaged in their education. However, due to factors outside of school, enrollment and retention are on the decline, and we must continue to address barriers to learning in order to increase our success. There was no substantive difference in the planned action compared to the actual implementation.

Action 3.2: Social and emotional supports

Implementation Status: 5- Full Implementation and Sustainability

Many of our students face significant social-emotional challenges, particularly English learners, foster youth, and those from low-income backgrounds. To support their success, we provide access to counseling, community-based resources, social workers, and trauma-informed practices. Each site includes a dedicated Wellness Space, along with regular activities such as arts & crafts and brain breaks to promote well-being. This action was implemented as planned, with no significant changes.

Action 3.3: Access to transportation

Implementation Status: 5- Full Implementation and Sustainability

We continue to support student attendance and engagement by providing transportation to and from school and school-related events. While public transit is free for students in our county, not all areas are covered or the routes make it difficult or time-consuming for students to utilize it fully. In cases where we have unique student needs, we utilize private ride-share services to ensure consistent access to school. This action was implemented as planned, with no substantive differences.

Action 3.4: Access to nutrition

Implementation Status: 5- Full Implementation and Sustainability

We provide students with snacks and fresh food, daily. We offer items such as fruit and vegetable pouches, granola bars, fruit and trail mix. Fresh items include hamburgers, quesadillas, sandwiches and wraps. When SNAP benefits were suspended midyear, we were able to pivot quickly and increase nutritional services for our students and families so that they can remain engaged. There was no substantive difference in the planned action compared to the actual implementation.

Overall Successes: This school year, several key actions have successfully supported student engagement and well-being. Our social-emotional supports, access to transportation, and nutrition programs were fully implemented and sustained, helping students stay supported academically, physically, and emotionally. Over the past several years, we have seen a growing need for social-emotional support and in response, we expanded services and built our capacity to address student needs through TREC training and trauma-informed practices. We have a robust student services team and we remain committed to student engagement by recognizing and addressing their needs, both in the classroom and beyond.

Overall Challenges: Declining student enrollment continues to pose a challenge for retention efforts. As families move out of the community due to rising living costs, housing instability, or employment changes, student populations have decreased. This has disrupted the continuity of support services from our retention staff. Despite these challenges, targeted outreach and individualized support have helped students stay engaged and connected to their education. Our school remains proactive by expanding outreach, offering flexible learning options, and maintaining strong relationships with students and families, even amid transitions and tumultuous social times.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services because actual expenditures were approximately the same as budgeted expenditures and principally directed towards our English language learners, low-income and foster youth students. We were able to meet our budgeted expenditures as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal Three helped make progress towards the LEA's goal: Increase Student Retention.

Action 3.1: Student retention

Effectiveness of Action: 2- Somewhat Effective

Metric: Retention Rate

Analysis Statement: As noted in the metrics section above, our retention rate has been recalibrated to be an end-of-year metric. As of the end of school year 24-25, our retention rate was 76%, which is 4% below our desired outcome. School retention staff work closely with teachers and counselors to keep students engaged in their education, but overall changes in the community have led to declining enrollment.

Action 3.2: Social and emotional supports

Effectiveness of Action: 3- Effective

Metric: Success Rate

Analysis Statement: As noted in the metrics section above, our success rate shows that our efforts to support students' social-emotional well-being have been effective. Our success rate has remained well above our expected outcome, with year 2 at 92.47%. Our robust team of social workers, social work interns, and school counselors ensure that students not only receive the academic support they need, but also the social-emotional resources necessary to thrive.

Action 3.3: Access to transportation

Effectiveness of Action: 3 - Effective

Metric: Attendance Rate

Analysis Statement: As noted in the metrics section above, our attendance rate is 88.35% and is well over the desired outcome. We continue to prioritize students' access to our program by supporting their transportation needs. This includes offering bus service to and from school events and field trips, coordinating access to local transportation options such as city bus lines, and supporting foster and homeless youth with transportation to and from school through private ride-shares.

Action 3.4: Access to nutrition

Effectiveness of Action: 3 - Effective

Metric: Non-completer Rate

Analysis Statement: As noted in the metric section above, we've successfully maintained a non-completer rate well below our desired outcome thus far in the LCAP cycle. Combined with strong attendance and success rates, this shows us that students are remaining engaged in their education. Providing nutrition to students is key in maintaining this engagement, especially since many students in our community experience food insecurity. Additionally, in response to the suspension of SNAP benefits midway through the school year, we increased nutritional resources available to our students to mitigate the impact on school attendance.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 3.1: Student retention

This metric was updated to be an end-of-year measurement. While this adjustment had some positive impact, it did not fully achieve the intended outcome. Based on our review, we will strengthen tiered re-engagement strategies and expand proactive communication with students and families to increase engagement, address attendance barriers, and better support student retention and graduation. The addition of another school psychologist will also allow for more consistent support across all school sites, improving social-emotional services and, ideally, improving student retention.

Action 3.2: Social and emotional supports

This metric was updated to be an end-of-year measurement.

Action 3.4 Access to nutrition

This metric was updated to be an end-of-year measurement. 100% of students who needed nutrition received it.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Student retention	<p>All English learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve their retention. We will do the following:</p> <ul style="list-style-type: none"> • Our student retention support personnel will engage in active outreach. • Student retention support personnel will be trained. • Provide additional services that support retention. <p>We serve English learners, low-income and foster youth with high mobility, who are typically behind in credits and have been out of school for a semester or more. We have seen success in the Retention Rate. Ensuring that our English learners, low-income and foster youth students are attending and remaining in school is critical to meeting their needs. To address this, we have trained personnel who provide outreach and monitoring of students so that their attendance is regular. We also have comprehensive incentive programs. We will continue these practices for our English learners, low-income and foster youth, because our data shows that we have been successful. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the Retention Rate of our students, and that we will stay above 80% each year.</p>	\$392,972.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.2	Social and emotional supports	<p>All English learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve the Success Rate. We will do the following:</p> <ul style="list-style-type: none"> • Our SEL programs are offered, as necessary. • Additional counseling, support personnel, and professional development. • Providing additional services that support student success such as yoga and SEL courses. <p>Our English learner, low-income and foster youth student population was negatively impacted by learning loss. Many sustained social and emotional trauma, which impacted our Success Rate, which measures graduation, retention and rematriculation. We know that the success of our program is connected to student social-emotional health. Trauma-informed practices have helped address many of the social-emotional needs of our English learners, low-income and foster youth students. We provide students with social-emotional programming as well as open access to counselors and social workers. We will continue to provide and improve on these actions and services, because we have witnessed success in our English learners, low-income and foster youth students when their social-emotional needs are carefully considered. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the Success Rate of our program, and that we will stay above 80% each year.</p>	\$843,000.00	Yes
3.3	Access to transportation	<p>All English learners, LTELs, low-income, and foster youth students will be supported with transportation services to improve their attendance. We will do the following:</p> <ul style="list-style-type: none"> • Provide metro or bus passes to facilitate their access to public transportation. • Provide additional transportation services that support attendance in other areas. <p>Our English learners, low-income and foster youth students are frequently without access to transportation to school or other related programs. It is</p>	\$20,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>critical that they have good attendance in order to learn. To address this issue, we provide a variety of transportation options such as bus passes, vans, and Hop Skip Drive. We will continue to provide this additional service for students, because we have seen it improve their access to school and programs. These actions will have a positive impact on the attendance rates of our English learners, low-income and foster youth students. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the Average Attendance Rate and that we will stay above 85% each year.</p>		
3.4	Access to nutrition	<p>All English learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve their completer rate. We will do the following:</p> <ul style="list-style-type: none"> • Ensure that students have access to food on site. • Provide additional services that support nutrition. <p>Food scarcity for our highly mobile English learners, low-income, and foster youth students is a serious concern. We think this will help mitigate the drop-out rate, which is the Non-completer Rate for our independent study program. To address this, we will ensure that students have access to quality nutrition at school. Students cannot learn well when they are hungry, so we will continue to provide food services and/or other means for them to receive sustenance. These actions will decrease Non-completer Rates for our English learners, low-income and foster youth student population. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the average Non-completer Rate, which will stay below 10% each year.</p>	\$75,000.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	<p>Increase Educational Partner Engagement:</p> <p>This is a maintenance goal for increasing educational partner engagement. We believe in the power of parent/guardian participation in impacting their student's academic progress. We believe parents/guardians can be invited and encouraged to participate in meaningful ways to promote positive school outcomes.</p>	Maintenance of Progress Goal

State Priorities addressed by this goal.

<p>Priority 3: Parental Involvement (Engagement)</p> <p>Priority 6: School Climate (Engagement)</p>

An explanation of why the LEA has developed this goal.

<p>Involving parents/guardians in their student's orientation, awards ceremonies, school activities, surveys and parent advisory meetings, has a positive impact on the student's school experience. With consultation of our educational partners, we made this goal a maintenance of progress goal.</p>

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Four supported the progress in meeting the following goal: Increase Educational Partner Engagement.

Action 4.1: Community/Parent Liaison and meaningful school activities

Implementation Status: 5 - Full Implementation and Sustainability

Our Community Liaison successfully engaged with the surrounding community and brought local partners into our school to provide valuable resources to our students/families. This year, we held a landmark event to celebrate our 20th anniversary where community partners shared information and resources directly with our educational partners. Additionally, our involvement in community events such as city-sponsored outreach events, resource fairs, and nonprofit partner events has allowed us to spread awareness of our program and the wraparound services we offer. Also, in response to a growing need in our community, we organized workshops on topics such as immigration services to better support our families. Overall, there is no substantive difference between our planned actions and their successful implementation.

Action 4.2: Translation and outreach services

Implementation Status: 4 - Full Implementation

Parent Advisory meetings are fully live-translated, and all documents sent home are provided in each student's primary language to ensure that school information is accessible to families. This increases the sense of connectedness to the school. School staff utilize translation and outreach services to increase communication with our English language learners, foster youth, and low-income families. There is no substantive difference in the planned action compared to the actual implementation.

Action 4.3: Educational partner engagement

Implementation Status: 4 - Full Implementation

We engaged educational partners through quarterly PAC/ELAC meetings, parent workshops & conferences, open houses, and other meaningful school activities. We also maintained avenues for regular, two-way communication, encouraging participation and feedback on school programs through the Annual Survey, LCAP Survey, exit tickets at meetings, and other input tools. There was no substantive difference in the planned action compared to the actual implementation.

Overall Successes: Our school strengthened its engagement with educational partners this year, resulting in more meaningful feedback to guide our LCAP, CSI plan, and overall program improvements. Through surveys, progress conferences, and school events such as PAC and ELAC, we gathered valuable insights that are both informative and actionable. Participation in the annual survey reached its highest level ever, demonstrating growing involvement from our educational partners. This increased collaboration has helped us more effectively align our goals and actions with the needs of our students and families, supporting stronger outcomes for student groups.

Overall Challenges: Ongoing economic, language, and access barriers already make parent engagement challenging our local school community. Recent immigration enforcement activity has added to these challenges, creating fear and uncertainty for some families and reducing their willingness to participate in school events. The fear, as a result, has limited their voice due to concerns about safety and trust. This has presented some challenges in fully connecting with, and addressing the needs of our students and families.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards our English language learners, low-income, and foster youth students. We were able to meet our budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal Four helped make progress towards the LEA's goal: Increase Educational Partner Engagement.

Action 4.1: Community/Parent Liaison and meaningful school activities

Effectiveness of Action: 3 - Effective

Metric: Participation Counts

Analysis Statement: As highlighted in the metrics section above, our participation data shows that we are engaging educational partners well beyond our targeted outcomes. So far this school year, we have recorded 1,791 participants at school events including orientations, progress conferences, and council meetings. Attendance at both our PAC and ELAC meetings is also above our baseline and desired goals, with 93 more participants than baseline. This growth reflects the impact of our strong outreach efforts and our continued commitment to building meaningful, collaborative school-family relationships.

Action 4.2: Translation and outreach services

Effectiveness of Action: 3 - Effective

Metric: PAC/ELAC Participation

Analysis Statement: As noted in the metrics section above, our PAC/ELAC participation has increased by 32% compared to the baseline. Educational partners are actively attending and contributing to discussions on programmatic issues such as CSI and feedback on CA School Dashboard progress. Key information shared at PAC and ELAC meetings is live translated, and any documents sent home are provided in each student's home language. This practice has supported stronger communication and has contributed to increased parent engagement.

Action 4.3: Educational partner engagement

Effectiveness of Action: 3 - Effective

Metric: School Survey Data

Analysis Statement: As noted in the metrics section above, our school survey results indicate strong educational partner engagement. This year, 98% of parents report feeling encouraged to participate. This is a 17 percentage point increase over our baseline. Student responses are similarly positive, with 99% reporting that they feel safe at school and 97% feeling connected. Staff responses reflect the same trend, with 100% reporting they feel safe and 98% feeling connected. Together, these results point to a strong and supportive school culture. Survey participation also reached its highest level to date, and when paired with these positive outcomes, it highlights that educational partner engagement is strong.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of the reflections and positive outcomes, there will be no changes made to the planned goal, metrics, desired outcome, or actions for the coming year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Community/Parent Liaison and meaningful school activities	<p>All parents of English learners, LTELs, low-income, and foster youth students will have access to meaningful parent activities and events at school. We will do the following:</p> <ul style="list-style-type: none"> • Staff a Community Liaison who does outreach. • Provide meaningful parent activities. • Promote events and activities for parents to participate in at school. <p>The parents of English learners, low-income and foster youth students are some of our most underrepresented educational partners. Parent and educational partner engagement is an essential component to effective schooling for our English learners, low-income and foster youth students. We know that parents, guardians, and their families sometimes have a difficult time engaging in meaningful school activities. We will continue to provide a Community and/or Parent Liaison who does outreach and promotes the school as a welcoming place for everyone. We will continue to provide this action, because we know that parent engagement is important and helpful in promoting the value of education in the family. We expect that these actions will increase involvement of the parents of English learners, low-income and foster youth. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our participation counts to be above school enrollment each year.</p>	\$190,000.00	Yes
4.2	Translation and outreach services	<p>All English learners, LTELs, low-income and foster youth students, and parents will be supported with actions and services to improve their translation needs. We will do the following:</p> <ul style="list-style-type: none"> • Our translation services are capable of translating for multiple languages in writing. • Oral translation services are also provided at school events. • Provide additional translation and outreach services as necessary. <p>Many parents/guardians of our English learners and low-income students speak a language other than English. Our English learners, low-income and foster youth students require effective communication and outreach about the educational programs and opportunities at the site. Effective communication improves a sense of connection. Translating</p>	\$10,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>communication into the students' and parents' primary language is critical for two-way communication efforts. We will continue to support this access to school programming and events through translating services. We expect that these actions will sustain the student's sense of connection for our English learners, low-income and foster youth student groups. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our students to report that over 90% feel connected to school each year.</p>		
4.3	Educational partner engagement	<p>Educational partner engagement is essential to a positive school experience and outcomes, especially for our English learners, LTELs, low-income, and foster youth. We will do the following:</p> <ul style="list-style-type: none"> • Provide meaningful educational partner engagement activities. • Provide two-way communication opportunities. • Provide additional services that support virtual communication and materials as necessary. <p>Our English learners, low-income and foster youth students and their families are sometimes underrepresented at school activities. Sustaining educational partner engagement requires expenses for such things as communications, outreach, materials, activities and transportation. We will continue this action because we have witnessed the positive impact on schools when barriers to access are removed for our English learners, low-income and foster youth students. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect that our parents will report that over 90% feel encouraged to participate each year, based on the school survey.</p>	\$10,000.00	Yes

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2026-27]

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.2	<p>Action: All academic interventions and program materials</p> <p>Need: Students who come to us are typically 3-5 grade levels or more behind in their academics. Based on their NWEA scores, we provide a personalized learning environment and targeted interventions to meet their academic gaps. As shown in the metrics</p>	Through a series of coaching events with Kern County Superintendent of Schools, we will modify this action by building the capacity of our teachers to implement SIOp strategies to improve students' reading comprehension. The implementation will be supported by Regional Instructional Specialists, the Curriculum Coordinator, and the ELD specialists. Also, with an additional layer of support through General Education teachers partnering with Literacy teachers and Ed. Specialists, we will ensure that the implementation	<p>We will closely monitor progress on our Math and Reading interventions programs. The following metrics are applicable:</p> <p>NWEA Math: All students, low-income, Hispanic, students with disabilities</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>section above, our socioeconomically disadvantaged students are far below grade level.</p> <p>Additionally, to address the requirements for Differentiated Assistance, we examined the needs of our student groups in the red on the 2023 CA Dashboard, which were our All-student group, Hispanic, students with disabilities, and socioeconomically disadvantaged students in ELA. Our Hispanic, socioeconomically disadvantaged students, and students with disabilities were red in mathematics. We found that our student groups who were in the red for ELA and Math, were also in the low-income student group. The 2024 CA Dashboard had these student groups in the red for ELA: Hispanic, socioeconomically disadvantaged students. Hispanic, socioeconomically disadvantaged students, students with disabilities and White were red in mathematics. Our 2025 Dashboard had these student groups in the red for ELA: White. Our socioeconomically disadvantaged students, students with disabilities and White were red in mathematics. (Metrics are reported in Goal #2).</p> <p>Teacher and parent feedback indicated that they support the importance of the intervention programs to increase students' English and math skills.</p> <p>Scope:</p>	<p>reaches our highest needs student groups. Student interventions include Math 180, Read 180, Literacy and other coursework help to improve ELA and math skills.</p> <p>Upon enrollment, students take NWEA MAP to assess their learning gaps and are placed according to their needs. This action is ongoing throughout the school year.</p> <p>We expect that these actions will be effective at increasing students' mathematics and reading assessments. However, because we expect that all students with low proficiency will benefit, this action is provided on an LEA-wide basis.</p>	<p>NWEA ELA: All students, low-income, Hispanic, students with disabilities</p> <p>CA Dashboard Academic Indicator results for ELA and Math</p> <p>We will also consider input from the parents of participating students to enhance the quality of the programs provided.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Schoolwide		
1.3	<p>Action: Tutoring and supports for students</p> <p>Need: To address the requirements for Comprehensive Support and Improvement (CSI), we examined the needs of our student groups in the red on the 2023 CA Dashboard for their Graduation Rate. These were our All-student group, English learners, homeless, students with disabilities, White, and Hispanic students. We noticed that these students were also in the socioeconomically disadvantaged group, which was in the red. The 2024 CA Dashboard had these student groups in the red: English learner, Hispanic, homeless, socioeconomically disadvantaged, students with disabilities, and White. Our 2025 Dashboard had these student groups in the red: English learner, LTELs, Hispanic, homeless, socioeconomically disadvantaged, students with disabilities, and White.</p> <p>Additionally, students who enroll with us are typically about 30 or more credits behind in school.</p> <p>Teachers, students, and parents provided feedback indicating that they support the high-value tutors bring to the program.</p> <p>Scope:</p>	<p>As a priority aligned to our Comprehensive Support and Improvement goal, we will focus on increasing access to tutoring aimed at supporting our English learners, low-income, and foster youth students in addition to our identified subgroups on the CA Dashboard indicators. Additionally, continued professional development for tutors and paraprofessionals, and tutor and paraprofessional push-in support in SGI classes will ensure students have quality instructional support in their program. We are implementing intensive tutoring with increased participation and access to virtual and in-person tutors. A high-quality tutor and student relationship will help increase participation.</p> <p>Tutoring on an ongoing basis will help them complete their assignments and increase the rate at which they finish their courses. Tutors support these students both virtually and in-person and are available during school hours and on Saturdays. They scaffold skills that need to be reinforced through additional practice. Tutors deliver a critical level of support that we have seen to be successful in helping address academic gaps effectively and improve student progress toward credit recovery and graduation. This action is ongoing throughout the school year.</p> <p>We expect that these actions will be effective at increasing students' credit completion rate which leads to improved graduation rates. However, because we expect that all students with low proficiency will benefit, this action is provided on an LEA-wide basis.</p>	<p>We will closely monitor progress on our credit completion rates for all of our student groups, especially for the following student groups in the red: All-student group, English learners, homeless, students with disabilities, White, Hispanic students, and socioeconomically disadvantaged student groups. We expect them to increase each year.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Schoolwide		
1.4	<p>Action: Counseling students towards graduation and materials</p> <p>Need: Historically, some of our lowest graduation rates are among the English learners, LTEL, low-income, and foster youth student groups, who are also students with disabilities, when compared to the All-student group who are at 91.4% for the 2024 DASS graduation rate. The 2025 DASS graduation rate was 91.0%. We examined the needs of our students who are behind in their coursework and credits. They are behind for a variety of reasons and many obstacles need to be addressed before they graduate successfully.</p> <p>Teachers, students, and parents provided feedback indicating that they support the high-value counselors bring to their students.</p> <p>Scope: Schoolwide</p>	<p>To address obstacles to graduation, we will provide additional training and support to identify students' socio-emotional needs, incorporate counseling services to support students' well-being, and create a positive learning environment.</p> <p>Counselors will be principally directed to promote high expectations and provide guidance toward graduation. Counselors will promote a positive working relationship and will connect frequently with high-needs students, to help meet social-emotional needs. They will use programs like the Science of Hope, which promotes intrinsic motivation and guides students to achieve their graduation goals.</p> <p>Counselors are a critical factor in helping students graduate. Counselors will provide additional counseling and social-emotional support for English learners, LTEL, low-income and foster youth students, and students with disabilities.</p> <p>Counseling occurs weekly for our high-needs students. There are also multiple ways for counselors to connect with students such as one-on-one, group meetings, and home visits. Counselors are continually in contact with teachers and parents to help monitor the progress of students.</p> <p>We expect to continue providing counselors who help address obstacles to graduation that students with disabilities who are also English learners, low-income, and/or foster youth students have;</p>	<p>We will closely monitor progress on our DASS graduation rates for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities. We expect them to increase each year.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>however, because we expect that all students could benefit, this action is provided on an LEA-wide basis.</p>	
<p>1.5</p>	<p>Action: Student activities that increase learning efforts</p> <p>Need: As demonstrated in the Identified Needs and Metrics sections, English learners, low-income, and foster youth students are often underperforming in credit completion. The expected average is 4.0 for all students. They often exhibit low motivation to complete their assignments.</p> <p>Students, teachers, and parents provided feedback indicating that they support the value of meaningful student activities and incentives.</p> <p>Scope: Schoolwide</p>	<p>To address this need, we will improve the coordination of integrated services, targeted academic interventions like tutoring and literacy intervention, and increase opportunities for social connection and community building. Additionally, the school will acknowledge student achievement and celebrate student successes to gain buy-in. The school will also boost student morale by increasing student-led events and activities, creating a positive learning environment. Students are recognized for their efforts in a variety of ways that are meaningful to them. This includes, but is not limited to, celebrations, field trips and enrichment experiences.</p> <p>Throughout the school year and on an ongoing basis, our students participate in a comprehensive incentive and recognition system, that helps support their scholastic efforts.</p> <p>We have witnessed how these actions can inspire students to continue to be productive and strive to accelerate their learning.</p> <p>We expect that these actions will have a positive impact on credit completion rates. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p>	<p>We will closely monitor progress on our credit completion rates for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities. We anticipate from these actions and support services to see an increase up to 4 credits per learning period.</p> <p>We will also consider input from students and parents to enhance the quality of the program provided.</p>
<p>2.1</p>	<p>Action:</p>	<p>To address this need, we will adjust the design of the action to ensure a comprehensive review of course placement, promotion, and support of A-G</p>	<p>We will closely monitor progress on our CTE completion rates and our</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Career and college-readiness for English learners, low-income, and foster youth students</p> <p>Need: Some of our lowest career and college-readiness rates are among the English learners, low-income, and foster youth student groups who are all below the 2023 state average of 18.7% for graduates completing a CTE pathway. In 2023, they were also below the state average of 44.5% completing A-G courses and below 11.1% in the A-G + CTE pathway completion rate. Our English learners, low-income and foster youth students need to be prepared to pursue a career or attend a college. In 2024, completing A-G was 0% and CTE was 1.8%. In 2025, completing A-G was 0.4% and CTE was 1.0%.</p> <p>Students, teachers, and parents provided feedback indicating that they support efforts to increase college and career-readiness.</p> <p>Scope: Schoolwide</p>	<p>completion. We will also ensure that course articulation for a full CTE pathway is implemented, and we will expand workforce readiness and dual enrollment offerings.</p> <p>Additionally, our counselors will work closely with teachers to ensure all students complete college and/or career coursework. Counselors connect students with WIOA to receive job training and placement. Additionally, field trips will be planned for career exploration.</p> <p>When our students enroll, they soon start to engage in career inventory, exploration, and Professional Skills, to align their interests into either CTE or other secondary education. We take into consideration local employment opportunities and student interests to help guide students into valuable coursework. Support personnel, staff, partnerships, and materials are essential to tailor and implement the curriculum for students. We have witnessed our students be successful in these programs.</p> <p>We expect that these actions will have a positive impact on our college and career readiness rates for our English learners, LTEL, low-income, foster youth, and students with disabilities. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p>	<p>A-G completion rates for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities.</p> <p>We will also consider input from the parents, students, and teachers.</p>
2.2	<p>Action: Professional development addressing English learners, low-income, and foster youth students</p>	<p>To address this need, we will adjust the design of the action to ensure that there are dedicated professional learning opportunities and collaboration specifically towards Mathematics and</p>	<p>We will closely monitor progress on CAASPP results, especially for English</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: As demonstrated in the Identified Needs and Metrics sections, CAASPP results on the ELA, math, and science assessments show that many of our lowest performing students are English learners, low-income, and foster youth student groups when compared to the All-student group.</p> <p>Teachers and parents provided feedback indicating that they support the value of professional development to increase effectiveness.</p> <p>Scope: Schoolwide</p>	<p>support for English learners. A deliberate approach using the PLC model and data-driven decision-making to incorporate research-based instructional strategies for scaffolding learning and assignment of interventions will promote academic progress.</p> <p>Throughout the school year, our teachers regularly participate in trainings, conferences, workshops, and professional learning communities to support capacity building in addressing our students' academic and social-emotional needs. We will train on our EL Tool Kit which includes effect strategies such as SDAIE. With additional staff training, such as trauma-informed practices, we have seen a positive impact on our At-Promise students.</p> <p>We anticipate that the increase in professional collaboration and learning will increase our state assessment results for our English learners, LTEL, low-income, foster youth, and students with disabilities. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis.</p>	<p>learners, LTEL, low-income, foster youth, and students with disabilities. We expect that these actions will have a positive impact on students' CAASPP scores.</p> <p>We will also consider input from the parents, students, and teachers.</p>
2.3	<p>Action: Technology access & support</p> <p>Need: All English learners, LTEL, low-income, and foster youth students will have 100% access to the curriculum and instructional support. We know that access to effective technology platforms and support programs is critical to student access to curriculum and instruction.</p>	<p>We have seen success with teachers and staff continually supporting students' access to technology, and we will continue to provide training and materials to close any gaps. Computers and hot spots are provided for every incoming student.</p> <p>This action starts at student orientation and is ongoing throughout the school year. We expect</p>	<p>We will monitor and sustain 100% of our students' access to technology for their educational program.</p> <p>We will also consider input from the parents, students and teachers.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Teachers and parents provided feedback indicating that they support the value of technology access.</p> <p>Scope: Schoolwide</p>	<p>that these actions will have a positive impact on our students.</p> <p>There is an ongoing effort to ensure that our English learners, LTEL, low-income, and foster youth students have access to technology. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	
<p>2.4</p>	<p>Action: Support for standards-based curriculum and instruction</p> <p>Need: All English learners, LTEL, low-income, and foster youth students will have access to high-quality, standards-aligned curriculum and instruction that is continually improving. The implementation score for our standards-based curriculum is 4.02, based on the CDE Standards Implementation Rubric.</p> <p>Teachers and parents provided feedback indicating that they support the value of implementing a standards-based curriculum.</p> <p>Scope: Schoolwide</p>	<p>To address this need, our staff will continue to participate in local curriculum review, engage in dialogue, and provide input on aligning standards to instructional practices. Professional development will guide the implementation of a standards-based curriculum. Support will be provided by curriculum specialists in analyzing data results and improving the process to monitor the effectiveness of our curriculum and instructional practices. Teams will adopt an online learning platform to personalize student learning in Mathematics & ELA.</p> <p>Throughout the school year, staff will continue to collaborate and develop a high-quality, customized curriculum, and provide coaching to support implementation for the unique needs of our student groups.</p> <p>We expect that these actions will have a positive impact on our educational program resulting in a higher score each year. An improved program supports our English learners, LTEL, low-income, foster youth, and students with disabilities. Furthermore, because we expect that all students</p>	<p>We will closely monitor progress on our implementation of standards-based curriculum score from the CDE Standards Implementation Rubric. We expect improvement on the implementation score each year.</p> <p>We will also consider input from the parents, students, and teachers.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		could benefit from this action, it is provided on a schoolwide basis.	
3.1	<p>Action: Student retention</p> <p>Need: We serve English learners, LTELs, low-income and foster youth, with high mobility, who are typically behind in credits and have been out of school for a semester or more. We have seen success in the Retention Rate for our student population, which is currently at 76.00%.</p> <p>Teachers and parents provided feedback indicating that they support the value of student retention.</p> <p>Scope: Schoolwide</p>	<p>Ensuring that our English learners, low-income and foster youth students are attending and remaining in school is critical to meeting their needs. To address this, we have trained personnel who provide outreach and monitoring of students so that their attendance is regular. We also have comprehensive incentive programs. We will continue these practices for our English learners, low-income and foster youth.</p> <p>These actions occur throughout the school year. We expect that these actions will have a positive impact on our educational program resulting in a higher score each year.</p> <p>An improved program supports our English learners, LTEL, low-income, foster youth, and students with disabilities. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p>	<p>We expect that these actions will have a positive impact on the Retention Rate of our program and that we will stay above 80% each year for all of our English learners, LTELs, low-income, and foster youths.</p> <p>We will also consider input from the parents, students, and teachers.</p>
3.2	<p>Action: Social and emotional supports</p> <p>Need: We serve English learners, LTELs, low-income, and foster youth students, many of whom have sustained social and emotional trauma. How we address this impacts our Success Rate, which measures graduation, retention and rematriculation. The Success Rate is currently 92.47%.</p>	<p>We know that the success of our program is connected to student social-emotional health. To address this issue, we have trauma-informed practices that have helped address many of the social-emotional needs of our English learners, LTELs, low-income, and foster youth students. Programs such as SEL, counseling, support personnel, social workers, professional development, and special programs such as yoga, have a positive impact on our students.</p>	<p>We expect that these actions will have a positive impact on the Success Rate of our program and that we will stay above 80% each year for all of our English learners, LTELs, low-income, and foster youths.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Teachers and parents provided feedback indicating that they support the value of social and emotional supports.</p> <p>Scope: Schoolwide</p>	<p>This action is provided on an ongoing basis, throughout the school year. Staff and teachers are all diligent in watching for signs of trauma and are quick to provide support.</p> <p>We will continue to provide and improve on these actions and services because we have witnessed success in our English learners, low-income and foster youth students when their social-emotional needs are carefully considered. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	<p>We will also consider input from the parents, students, and teachers.</p>
<p>3.3</p>	<p>Action: Access to transportation</p> <p>Need: We serve English learners, LTELs, low-income, and foster youth students who are frequently without access to transportation to school or other related programs. It is critical that they have good attendance in order to learn. The Average Attendance Rate is currently 88.35%.</p> <p>Teachers and parents provided feedback indicating that they support the value of having reliable transportation.</p> <p>Scope: Schoolwide</p>	<p>To address this issue, we provide a variety of transportation options from metro passes, bus services, and ride-shares. We will continue to provide this additional service for students because we have seen it improve their access to school and programs.</p> <p>These actions are provided throughout the school year and teachers make sure students have access to transportation. We know that staff and students working together daily, will have a positive impact on the attendance rates of our English learners, LTELs, low-income, and foster youth students.</p> <p>English learners, LTEL, low-income, foster youth, and students with disabilities are served by this action. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p>	<p>We expect that these actions will have a positive impact on the Average Attendance Rate, and we will stay above 85% each year for all of our English learners, LTELs, low-income, and foster youths.</p> <p>We will also consider input from the parents, students, and teachers.</p>
<p>3.4</p>	<p>Action: Access to nutrition</p>	<p>To address this, we will ensure that students have access to quality nutrition at the school or even</p>	<p>We expect that these actions will have a positive</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: Food scarcity for our highly mobile English learners, LTELs, low-income, and foster youth students is a serious concern. We intend to provide nutrition for all students. We think this will help mitigate the drop-out rate, which is the Non-completer rate for our independent study program. The Non-completer Rate is currently 7.53%.</p> <p>Teachers and parents provided feedback indicating that they support the value having access</p> <p>Scope: Schoolwide</p>	<p>delivered, if necessary. Students cannot learn well when they are hungry, so we will continue to provide food services and/or other means for them to receive sustenance.</p> <p>Throughout the school day, teachers and staff are diligent about the nutritional needs of students. They are quick to provide food, daily. Students also ask for food as needed.</p> <p>These actions will decrease non-completer rates for our English learners, LTEL, low-income, and foster youth student population. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	<p>impact on the average Non-completer Rate, which will stay below 10% for all of our students.</p> <p>We will also consider input from the parents, students, and teachers.</p>
4.1	<p>Action: Community/Parent Liaison and meaningful school activities</p> <p>Need: Feedback from teachers, SRS, administrators, and counselors, state that the parents of English learners, LTELs, low-income and foster youth students are less involved in their student’s educational activities. According to our educational partners, parents are an essential component to effective schooling and the overall academic success of these students. As shown in the metrics section above, we expect the participation counts to be above enrollment.</p>	<p>To ensure our continued success, we hope to see an increase in parent participation. We will continue to provide a Community Liaison who does outreach and promotes the school as a welcoming place for EL, FY, and LI students through organizing on-site activities and events.</p> <p>We believe that increasing parent/family engagement, as well as creating and cultivating connections in the community, will have a positive impact on students. This action is on an ongoing basis, throughout the school year.</p> <p>The support of the Community Liaison is designed to meet the needs associated with increasing parent involvement of English learners, low-income and foster youth. However, because we</p>	<p>We will closely monitor progress on our parent participation count so that they are above the enrollment amount.</p> <p>We will also consider input from the parents, students, and teachers.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Teachers and parents provided feedback indicating that they support the value of implementing parent engagement activities.</p> <p>Scope: Schoolwide</p>	<p>expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	
<p>4.2</p>	<p>Action: Translation and outreach services</p> <p>Need: According to our educational partners, parent and student connectedness is an essential component to effective schooling and the overall academic success of the identified students. We have had 384 participants in our PAC/ELAC meetings this year.</p> <p>Teachers and parents provided feedback indicating that they support the value of outreach services.</p> <p>Scope: Schoolwide</p>	<p>Eliminating language barriers for families of our English learners is necessary to ensure that students and families are aware of school events and activities. We will continue to increase awareness of the school events and activities through translating materials and/or outreach services. The Community Liaison, in coordination with our staff, will utilize these services to increase communication with our EL, FY, and LI parents using written, verbal, and virtual communications.</p> <p>This action is provided throughout the school year based on identified needs. Translation services are available quickly for written materials and oral services as necessary.</p> <p>This action is designed to meet the needs of increased communication and parent involvement of English learners, low-income and foster youth. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	<p>We expect that these actions will have a positive impact on participation in ELAC and PAC meetings. This is good for all of our English learners, LTELs, low-income and foster youth.</p> <p>We will also consider input from the parents, students, and teachers.</p>
<p>4.3</p>	<p>Action: Educational partner engagement</p> <p>Need:</p>	<p>According to our educational partners, parent involvement is essential to effective schooling and the overall academic success of our students. Sustaining educational partner engagement</p>	<p>We expect that these actions will have a positive impact on the school survey results. We expect</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Feedback from teachers, administrators, and counselors, state that the parents of English learners, LTELs, low-income, and foster youth students are less involved in their student's educational activities. Results from our school survey show that our parents report that 98% feel encouraged to participate.</p> <p>Parents and teachers provided feedback indicating that they support the value of educational partner engagement.</p> <p>Scope: Schoolwide</p>	<p>requires expenses for such things as communications, outreach, materials, activities, and transportation.</p> <p>We believe in the importance of parents feeling encouraged to participate. We expect that the Community Liaison, in coordination with our staff, will utilize these resources to increase positive two-way communication with our EL, FY, and LI parents using written, verbal, and virtual communications. This action is done on an ongoing basis throughout the school year.</p> <p>We will continue this action, because we have witnessed the positive impact on schools when barriers to access are removed for our English learners, LTELs, low-income, and foster youth students. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>	<p>parents will report that over 90% feel encouraged to participate each year, based on the school survey.</p> <p>We will also consider input from the parents, students, and teachers.</p>

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Long-term English learners (LTEL) and English learners support staff, interventions, and materials</p>	<p>To address this, we will improve our support for our EL and LTEL students by embedding opportunities for structured oral language development, such as public speaking or presentations, providing opportunities for</p>	<p>We will closely monitor progress on this action which is designed to meet the greatest needs of English learners. By using</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>Need: According to the 2023 CA Dashboard, our English learner student group was in the green on the English learners Performance Indicator (ELPI). We also examined our reclassification rate trend and did a needs assessment on our LTELs. Our ELPI status was orange on the 2024 CA School Dashboard. For 2025 the ELPI was 52.8% for EL, which was a green status, and our LTEL was 53.3%, also green.</p> <p>Teacher and parent feedback indicated that they support the importance of the EL program and support increasing students' skills.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>cooperative learning through SGI, and we will provide text-rich environments where students can make language connections between English and their native tongue. We will increase and target tutoring, and additional EL paraprofessional support in SGI classes to ensure that English learners have quality instructional support in their program. Additionally, with System 44, we will address the identified needs of our EL students and target their learning gaps.</p> <p>We will address this need by providing an EL Paraprofessional or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Students will receive individualized support based on their specific English proficiency level. English language development (ELD) is an integral part of our comprehensive program. We aim for every English learner to meet the linguistic and academic goals identified by their proficiency level. ELs participate in newcomer programs, structured english immersion, or english language mainstream, based on both academic progress and their capacity to successfully advance their language acquisition. Support staff will provide specific language instruction through vocabulary and language development to support literacy skills and language acquisition. This will be done throughout the school year.</p> <p>We expect that these actions, which are designed to address our EL and LTEL students' needs, will be effective at increasing our students'</p>	<p>integrated and designated unit tests aligned with appropriate ELD and ELA standards, along with real-time tracking, we will monitor students' language proficiency and academic progress. As a result, we expect improvements in their ELPI scores and an increase in the reclassification rate.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
		performance on the ELPAC and improving their reclassification rate. This action is provided on a limited basis.	
1.7	<p>Action: Professional development to support English learners and LTELs</p> <p>Need: According to the 2023 CA Dashboard, our English learner student group was in the green on the English Learners Performance Indicator (ELPI). We also examined our reclassification rate trend and did a needs assessment on our LTELs. Our ELPI status was orange on the 2024 CA School Dashboard. For 2025 the ELPI was 52.8% for EL, which was a green status, and our LTEL was 53.3%, also green.</p> <p>Parent and teacher feedback indicated that they support the importance of professional development to support English learners and LTELs.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>To address the need to further support our LTELs, our ELD Specialist along with our Lead Literacy Teacher will build the capacity of teachers through monthly coaching. The coaching will focus on assessing existing language skills, improving academic literacy across all subject areas, and providing challenging lessons that utilize evidence-based learning strategies such as annotations, mentor/model texts, and shared reading. Our ELD Specialist will monitor the progress of our LTELs in their coursework as well as their performance on the annual ELPAC.</p> <p>Paraprofessionals will work with faculty to plan academic intervention concentrated on effective and equitable instructional strategies for EL and LTEL students, including providing one-on-one and push-in support during SGI classes.</p> <p>Additionally, we will provide professional development opportunities for teachers to enhance their skills in addressing diverse learning needs. This may involve workshops, seminars, or collaborative learning communities focused on effective instructional practices. Our English learners will be served by trained EL Paraprofessionals or other trained bilingual support personnel. This includes but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Trainings could include, but are not limited to, developing an EL Tool Kit, implementing effective EL strategies</p>	<p>We will monitor progress on this action as it's designed to meet the greatest needs of English learners. Using real-time tracking, student language proficiency and academic progress will be monitored and we expect that the CA Dashboard ELPI, as well as the reclassification rate, to increase.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
		<p>using SIOP (Sheltered Instruction Observational Protocol), and scaffolding strategies such as modeling, building schema, and contextualization. Additionally, workshops, conferences and Professional Learning Communities provide information that will build the capacity of faculty and staff to increase student performance.</p> <p>Professional development happens throughout the year on various topics. There is follow-up with staff who are trained using the PLC model. There are opportunities for staff to collaborate with each other and share best practices.</p> <p>We expect that our English learners, including long-term English learners' (LTEL), ELPAC scores, ELPI, as well as the reclassification rate, will increase as a result of the personalized academic support and attention they will receive from qualified personnel. This action is provided on a limited basis.</p>	

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not Applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

We are a single school LEA and an independent study DASS charter school, with over 55% unduplicated students. Our students are served by additional personnel specifically trained to address their specific social-emotional and academic needs. The funds were used to increase or retain critical personnel, who are essential to implementing each goal.

Listed below are the goals and actions where there are additional personnel who provided direct services to unduplicated students:

Goal 1 Action 2: All academic interventions and program materials – have intervention teachers for math, ELA, and reading.

Goal 1 Action 3: Tutoring and support for students – have many tutors proficient in multiple subject areas.

Goal 3 Action 2: Social-emotional, trauma support services and materials.

We are single school LEA and do not have comparison schools.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery.	A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery.
Staff-to-student ratio of certificated staff providing direct services to students	A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery. Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(q\)](#) and [EC Section 52066\(q\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none">• Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
